

ARLINGTON HEIGHTS HERALD

VOLUME 2, NUMBER 7 ENTERED AS SECOND-CLASS MATTER AT ARLINGTON HEIGHTS, ILLINOIS

ARLINGTON HEIGHTS, ILLINOIS, FRIDAY, MARCH 2, 1928

H. C. PADDOCK & SONS, Publishers SUBSCRIPTION \$2.50 — A YEAR Arlington Heights, Ill.

ALDERMEN INSPECT NEW FIRE ENGINE

When Palatine purchases its new fire fighting equipment, it will be almost certain to include a fire truck with booster pump. Aldermen Kruse and Hummel with Chief Fire W. G. Ost, witnessed a demonstration of the new LaFrance engine in Chicago yesterday. They recognize the merits of a fully equipped outfit and preference to any smaller or temporary equipment.

They were taken from the room of the American LaFrance Co. on Michigan boulevard to the fire station where a fire truck was being demonstrated. Securing the water from Chicago river, five leads of hose were played simultaneously from the engine. The effectiveness of high pressure that is obtainable with this equipment would be a safeguard and protection which fire people do not at present have. The engine demonstrated is estimated in cost—less than \$7,000, it gives a protection on a par with the more expensive equipment that are to be found in full-time fire departments of the large city.

One special feature is the ability of the engine to throw water through a garden hose for use when fire is small and a minimum amount of water is sufficient. The pump has the usual chemical features of the truck carries 1,200 feet of hose. The motor is 72 horse power from which power is directed to truck itself or to the booster pump.

It is understood that funds for the purchase of the outfit will be obtainable from "connection charges" obtained from new main subdivisions.

Teeth of Arlington Heights Children Pass High Grade

We hear a lot about the speller, the best pupil in arithmetic, the most healthy child in the Cook county schools. If time ever comes when the teeth are judged, Miss Jackson, the community nurse of Arlington Heights, believes that Arlington Heights children will be the winners.

Recent local dental examinations have proven to be very successful. The results are being attended to rapidly as the local dentists are able. Upon the re-examination of these children, Miss Jackson finds that with the exception of very few cases the teeth of the school children are in very excellent shape. She does not believe that there is a child in the public schools who does not own his own toothbrush. This was partly made possible by the cooperation of a tooth brush firm and by the distribution of tooth paste on the part of a tooth paste manufacturer.

The physical requirements of many of the large employing corporations before a person is admitted to employment is bringing with the inch rule of the front the need of good teeth. What an asset to a person. What an asset to a good body. A local girl who refused employment recently billy to make it clear to our readers her teeth were bad. Thrice understanding, insisting on company did not want to employ one who had such a defect. The girl who would probably lose her mind may grasp. We find efficiency on account of a toothbrush. We disagree on account of a toothbrush. The same applies to the dental work in the community. We are doing a wonderful work in the community. Our vision is limited to the children themselves are beginning to realize that fact.

Miss Jackson with her heart of the past. And we little chart is to be found at regular intervals of the local schools weigh reject God, to reject religion, and examining the mouths of these we can not fully grasp these children. Under weight children with our puny, fallible reading powers.

Community Play March 17 and 20

The Community Players give a musical comedy "Buddies" in the high school auditorium March 17 and 20. Don't forget!

The following is the cast:

Abie—S. Edward Elfled.
Buddy—Harold Fitzpatrick.
Biff—W. K. Parker.
Johnny—Jack Weise.
Balbette—Fern Lorenzen.
Marie—Faith Lorenzen.
Babe—Ralph Cressy.
Orderly—Gus Frumburg.
Rube—Homer J. Byrd.
Madame Benoit—Maude K. Parker.
Sonny—Roscoe J. Reed.
Julie—Helen Marie Roast.
Alphonse—Charles P. Flynn.
Louise—Lillian Draper Klehm.
Chorus—Gladys Hetherington, Violet Lanning, Sylvia Brix, Lorraine Muller, Ethel Hertel, Fred Hertel, Richard Best, Joe Werdowatz, Wallace Moss, Wilbert Hartman, Katherine Jerrold, Robert Stevenson.

Paint Company Seeks Location in Palatine

Rumors have it that Peter Van Schaack Co., is considering establishing a manufacturing plant on the old Hoiste farm of 50 acres south of the railroad and adjoining Hicks road. Nothing definite has been made public, but various reports are being circulated that tentative overtures have been made to the village in reference to sewer connections. On account of the chemicals employed by this company there might be some objection to their use of the sewer, so are the reports.

FUNDAMENTAL QUESTIONS

H. C. Fricke
Pastor, Lutheran Church

WHAT DOES MAN KNOW?

Man knows much. Added to his own knowledge are the facts and figures, the observations, conclusions and discoveries of the many millions of human minds, who have preceded him. Where they have left off he continues his experiments, adding bit by bit to the sum total of human knowledge.

But what does man know of the real nature of things? The great thinkers of all ages have tried to explain the universe, to define and explain the commonest facts of life. Man, they admit, can only skim on the surface of things while the real heart of nature must forever remain an impenetrable mystery. The real problems of life, concerning human existence and the purpose of it, the problems of the soul with its anxious questions, man has never solved. In a world of mystery, man is a mystery unto himself.

So Alexander von Humboldt, one of the greatest intellects of the modern age, confesses despairingly, "All life is the greatest nonsense. After striving and searching for 50 years, one is compelled to confess that one has attained nothing. If we only knew at least why we are in the world." Goethe, the German poet, after many years of study cries out, "I see that we can know nothing, and it almost breaks my heart."

Such a deficient state of human knowledge, must certainly serve to make honest scientists humble and teachable. And this is just the effect it has had upon some of the greatest thinkers, the world has produced. Kepler, the astronomer, Newton, the physicist, Bryan, the statesman and a host of other intellectual giants were simple, believing Christians. Their research and study convinced them of man's lack of knowledge concerning the real principles of nature's forms and powers. They reasoned correctly, that science cannot serve as a guide for truth in the mysterious realm of religion, since it has not even solved the common facts in the field of nature, which lies before its eyes.

The modern view of religion, however, insists that science must enter with its test tubes and reasoning process into the religious sphere and test all its phenomena by the so called scientific process. Before modern man can be asked to accept the teachings and principles of religion, he must first deny this privilege to science, and rightly so. Science deals with what can be observed with its senses, and not with religious experiences, which must be comprehended by faith. When science enters upon the religious field it immediately steers into needless difficulties. It cannot solve the mysteries which agitate the human mind.

What folly then to endeavor to measure a person's religious faith by the inch rule of the front the need of good teeth. What an asset to a person. What an asset to a good body. A local girl who refused employment recently billy to make it clear to our readers her teeth were bad. Thrice understanding, insisting on company did not want to employ one who had such a defect. The girl who would probably lose her mind may grasp. We find efficiency on account of a toothbrush. We disagree on account of a toothbrush. The same applies to the dental work in the community. We are doing a wonderful work in the community. Our vision is limited to the children themselves are beginning to realize that fact.

Miss Jackson with her heart of the past. And we little chart is to be found at regular intervals of the local schools weigh reject God, to reject religion, and examining the mouths of these we can not fully grasp these children. Under weight children with our puny, fallible reading powers.

Paint Company Seeks Location in Palatine

Rumors have it that Peter Van Schaack Co., is considering establishing a manufacturing plant on the old Hoiste farm of 50 acres south of the railroad and adjoining Hicks road. Nothing definite has been made public, but various reports are being circulated that tentative overtures have been made to the village in reference to sewer connections. On account of the chemicals employed by this company there might be some objection to their use of the sewer, so are the reports.

NEW ORPHAN HOME BLDGS. ARE READY

Tuesday evening we accepted an invitation to go through the new Orphan Home buildings and see what a wonderful place it really is now that it is practically completed. As a modern fireproof home it would be hard to beat. Almost everything is now in place and as we were shown the big built-in refrigerator, which is cooled by an automatic ice machine, we could see where the ice man won't have to worry about keeping them supplied. The four dormitories in the boys' section each containing 10 single beds furnished with best grade springs and mattresses nice new linen almost made us want to lie right down there and take a restful nap, they looked so inviting. The reception room located between the above mentioned sleeping quarters was roomy and furnished with new furniture. Tables, chairs and settees all made of red. A grand place for the boys to receive relatives and friends. Our guides explained that the girls dormitories were just like those we had seen where the boys stay. The spacious dining room and kitchen are up to the minute in modern equipment and oh what a "gym" with a real stage for putting on plays.

The underground cement tunnel that connects every building means that the children do not have to leave the building to go to any other part of it or to one of the other units of this excellent home. The nursery room for little tots is furnished with small crib beds for their comfort and safety, while a great deal of filling was done this winter there still remains the rich black dirt dressing to be put on and what a beautiful grounds they will then have. It had been the hopes of all concerned to move the children into this new building the first week in March, but it all depends on the contractor getting his work completed if they do. The furniture is now in place and added materially to the grandeur of the new building which in itself is a wonderful piece of work. As soon as the children take up their abode in the new building carpenters will begin remodeling the old home for the old people. Those interested in the home should try and go thru it before the moving act takes place. And if you enjoy it as much as we did with our two boy scout guides, you will never be sorry you made the trip.

Girl Scouts Holds Interesting Meet

The troop of girl scouts under the leadership of Fern Lorenzen are having some very enjoyable meetings these winter months. As a boy scout would say "there is something doing in every minute." Fourteen of the girls have completed their course in home nursing under the direction of Miss Jackson, the community nurse. At the last meeting of the troop the plan was tried of having each troop present some number for the entertainment of the others. Two of the troops presented something patriotic built around the two men whose birthdays occur in February. Other troops presented small playlets. The same plan was followed this week.

Switch Track May Be Extended to Race Course

The activities of railroad surveyors in the vicinity of Hicks road along the right of way of the track has started rumors that the present switch track to be extended to Arlington Park for the purpose of handling freight and express cars for the race horses. The facilities at Arlington Heights were not as good last year as desired, the chief objections being the distance of the unloading platform from the barns.

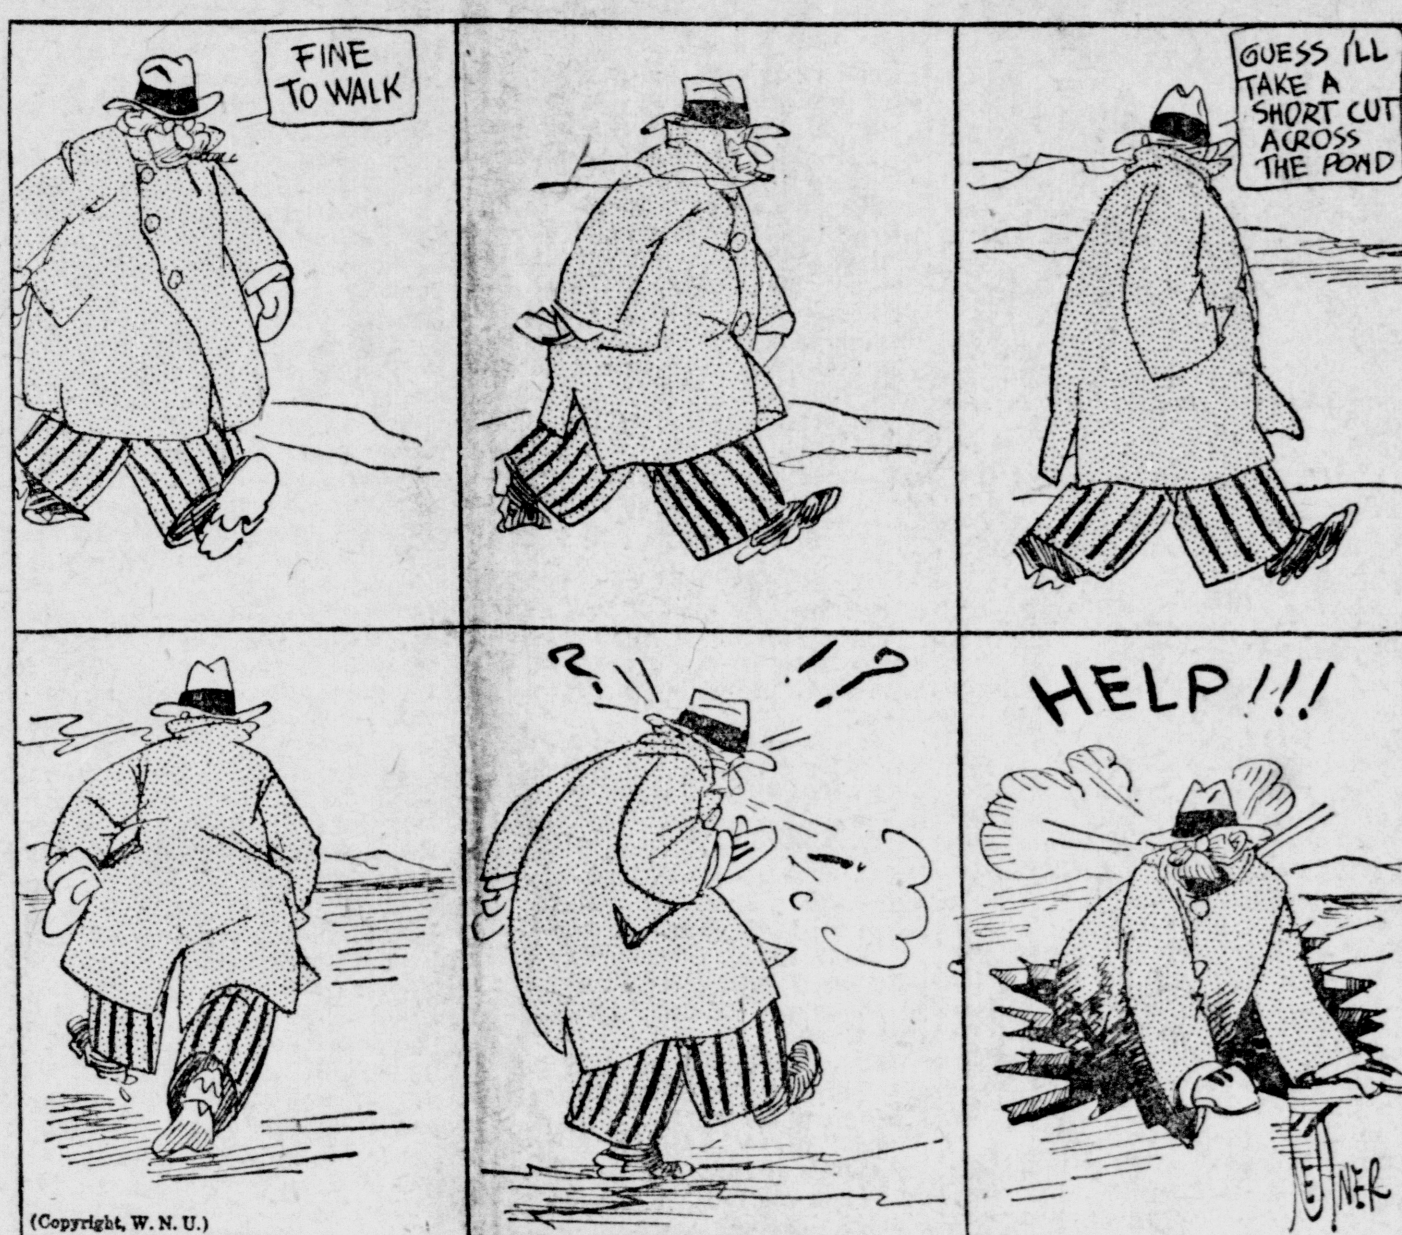

Boy Scouts to Visit The Field Museum

The troop of boy scouts of the intermediate school are going to enjoy a trip to the Field Museum Saturday. They will be accompanied by Supt. Whitmore and scoutmaster Gustafson. A lecture will be attended in the morning, which will be followed after lunch by an inspection of mammoth and leather handwork of the Indians. The boys are taking tests in leather work, making original designs upon their hatchet carriers.

New Evening Train Promised In May

In response to petitions that have been circulated in the towns north of Des Plaines, assurances have been received that the C. & N. W. R. R. will extend the schedule of the train leaving Chicago at 10:32 p. m. to Barrington, the same to take effect with the arrival of daylight saving time. The interval between the departure of the 9:32 and the theatre train is too great in the opinion of a great many commuters who frequently are kept in Chicago for the early

Our Pet Peeve

Lions Club Move "Den" to Lutheran School Building

The Arlington Heights Lions Club moved to the Lutheran school dining room. Following an offer from the ladies aid of St. Peter's church, the club voted Tuesday evening to "move" to the new quarters.

The first meeting in the new place will be March 12. They will meet there for a period of six months.

The Lions Club heard an interesting address at their meeting Tuesday evening, given by Mr. Coswell of the Public Service Co. He spoke on methods pursued in the manufacture of gas, the byproducts, losses, etc., how gas can be economically used in the home and methods to be employed in the resuscitation of people who have been overcome by it.

Interest in the bi-monthly meetings of the Lions Club is so generally manifested by the members that the average attendance is about 90 per cent.

Intermediate School Basketball Players Go To Glen Ellyn

Coach Gustafson of the intermediate school took two terms of basketball players to Glen Ellyn Thursday afternoon for their second meeting with the teams of that school. The games were played at the Glenbard high school. We go to press too early to tell the score, but upon the previous meeting of the teams, Arlington Heights was winner by a score of 10 to 4.

School Band Ready in 2 Weeks

The school band will be ready for its first rehearsal as a band in two weeks is the promise that Mr. Larkie the instructor has made to the band members. They have only had two weeks instruction and it is all rather new to them. The members can hardly believe that on March 9th, they will be playing together as a band. They do not want any spectators upon that occasion, but have promised a public rehearsal within two months.

Public Service Co. Spend \$15,000,000 In New Construction

Announcement by Samuel Insull chairman, that the Public Service Company of Northern Illinois plans to spend upwards of \$15,000,000 on new construction during 1928, was an important feature of the company's stockholders' meeting in Chicago Monday afternoon, February 27.

In picturing the growth of the Public Service Company during recent years Mr. Insull stated that the territory now being served by this company includes more than 6,000 square miles—larger than the whole state of Connecticut.

A resolution of confidence in Mr. Insull and those associated with him in management of the Public Service Company was unanimously voted by those stockholders present.

The following gentlemen comprise the company's board of directors, and were re-elected Monday:

Henry A. Blair, Walter S. Brewster, Britton I. Budd, Louis A. Ferguson, William A. Fox, John E. Gilchrist, John H. Gulick, Martin J. Insull, Samuel Insull, Samuel Insull, Jr., Frank G. Logan, Edward P. Russell, and Solomon A. Smith.

A. SCHARRINGHAUSEN DIES

Mr. Adolph Scharringhausen died Feb. 29. The funeral will be held Sunday at 2 p. m. at the residence and at St. John's church at 2:30. Deceased leaves 3 daughters and 4 sons.

PALATINE MEETS ARLINGTON IN FINAL B. B. GAME

The big game, the climax of the '27-'28 season for both the Arlington Heights and the Palatine teams, will be staged tonight on the local court. This is in the nature of a rubber game, both teams having won a game previous to this one. Early in January Palatine beat the cardinal clad locals by the score of 22-19. In the recent conference tournament Arlington reversed this victory by topping Palatine by a 28-26 count. All indications are that the game tonight will be another thriller with the outcome still very much in doubt.

The edge, if any, belongs to the Palatine team, due principally to their experience, size and to their excellent showing in beating Antioch, conference tournament champs, Tuesday night of this week. Arlington, however, is not by any means conceding victory to their neighbors and are all set to battle to the last ditch to bring home a win tonight. Arlington's win early this month was the first victory for the locals over Palatine in the three years that Smith, Grandy and Reuse have been ruling the roost over West practically. This same Palatine team shared the championship honors in the conference last year with Antioch, but haven't been faring so well this season.

Arlington wasn't figured very high at the beginning of the season, but of late have been flashing some excellent basketball to win the majority of their games recently. This recent showing gives them almost an even chance for victory over Palatine and their hopes run high to clinch the season's championship between the two schools by tonight's game.

This will be the last game on local floors for Smith, Grandy and Reuse. The Arlington team, for Capt. Boite, Wah, Prosser, Pate, Brown, and Urlik for the locals. These nobly and are resolved to close out boys have represented both schools the local season with colors flying and making a huge effort to win this last game before the two teams meet again in the Waukegan tourney next Friday to battle further for supremacy.

A packed house will no doubt witness the games tonight. As an added attraction for the early comers a curtain raiser has been scheduled for 6:30 between two teams composed mostly of Freshmen with a few Sophomores, all from Arlington high. The second teams of the two schools will hook up at 7:30 with the big racket starting at 8:30.

The doors will be thrown open at about 6:30, and the admission will be 50 cents to adults, and thirty-five cents to the students of both schools. Arlington Heights season tickets will, of course, be recognized, this being Arlington's home game.

The probable lineup for Palatine will be Grandy and Smith at forward; Capt. Reuse at center; and Mess and Kruse at the guards. For Arlington, Capt. Boite and Wah will start at forward; Johnson at center and Prosser and Pate at the guard stations.

Christian Science Lecture March 4th

Christian Science Society, Arlington Heights, Illinois, announces a free lecture on Christian Science, by Judge Frederick C. Hill, C. S., of Clinton, Illinois, member of the Board of Lecturers of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, in the township high school auditorium, Arlington Heights, Ill., Euclid Ave., near Northwest highway, Sunday afternoon, Mar. 4, 1928, at 3:30 o'clock. The public is cordially invited.

St. John's Ladies Hosts to Arlington Heights District

St. John's, Arlington Heights, Hosts to Women's Organizations. The ladies of St. John's and their pastor, were hosts to the leaders of the Arlington Heights Federation of Evangelical women's organizations last Sunday p. m. The officers and chairmen of the local societies, met with the federation leaders, to discuss committee work and for promotion and educational purposes. There were ten different organizations represented. The meeting proved to be a very helpful one.

The ladies served a cafeteria lunch, which closed this gathering in a very sociable manner.

Local Basketball Teams Will Clash Tuesday Night

The Presbyterian church team and the Community Athletic Club, representing the Methodist church, will play two games of basketball at the Presbyterian church gym Tuesday night. There has been considerable talk by the members of both squads as to the respective merits of the two teams. All this has caused considerable rivalry between the two groups, and has furnished the subject for no end of good natured chaffing on both sides. There are about eighteen men on the C. A. C. squad and while the Presbyterian group isn't so large, they are enlisting the services of some of their other Sunday school members so that two different and complete teams may represent each rival faction. The first game will be called shortly after seven o'clock.

The C. A. C. will be decked out in their new blue uniforms and their two squads will consist of the following men: Fellows, Buskirk, Tesch, Alden, Hartman, Preburg, Lewis, Le Fever, Wells, Stippick, Schoenbeck, Brix, I. Boite, Knox, Wehze, Fitzpatrick. Coach Cressy of the high school, and ex-coach Noble Puffer and a few others.

To combat them the Presbyterians have Johnson, Meyer, Crane, Paulson, Gustafson, Pate, Grose, Garman, Moss, H. Brown, W. Miller, W. Castle and Klehm, Wilton.

Booster Club Initiates Eleven New Members

The Arlington Heights Booster Club initiated 11 new members last Friday night. It was a gay time for both the initiators and those who were being initiated. The "class" after being corralled in one room ready for the ceremonies, suddenly disappeared. After a quick search all except one was located and the "medicine" was again applied. The new members were not the only ones who were initiated. At one time the "class" overpowered their guard, gagging and tying them up, two of the boys sacrificing their shirts for the ropes. All in all, it was a great initiation and one that will be remembered by both sides for a long time to come. The Booster Club dance at the high school gymnasium Saturday night was well attended.

Celebrate 24th Wedding Anniversary of Mr. And Mrs. H. Freundt

Mr. and Mrs. W. F. Wille and son, Irvin, Mr. and Mrs. Henry Wille and Mr. and Mrs. Alfred Busse, motored to Elmhurst Tuesday, where they attended the celebration of the 24th wedding anniversary of Mr. and Mrs. Henry Freundt. There were present a large number of Elmhurst friends. Mr. and Mrs. Freundt are ideal entertainers and everyone had an enjoyable evening. A delicious lunch was served at a late hour. Mr. and Mrs. Freundt formerly resided

I See By The Paper

Woman 96 has 23rd birthday on Feb. 29, and that's good enough for a headline and a picture. Why? Every woman above 30 has only half that number birthdays and some we know have celebrated their 25th birthday every year for the last 15 years.

Wanted—A husband, attractive young woman of personality and charm lacking opportunity for desirable contact wishes to correspond with men of breeding and education with view to marriage—companionable or regular—must be 35 to 55. That from a Columbus, Ohio, paper, and a reporter who interviewed her says that this school teacher is going to commit suicide if she doesn't get married soon. Funny. Those who are out are crazy to get in and some of those in are crazy to get out—all around they're crazy.

Milwaukee headline reads: "Hubby by Her Out of Bed, Dog In, Wife Charges"—It's a dog's life.

See where a local newspaperman traced a criminal for five months and finally landed him getting the man 60 years. Always did think newspapermen would make better criminal hunters than most police departments. Try to keep something from the papers and you'll find out.

I see by Wednesday's paper you can get drunk on alcohol made from newspaper. An acid turns the paper into wood pulp again and then into sugar and the sugar ferments making alcohol. That accounts for some of my friends who seem to get drunk on the morning paper but I always thought it was from improper digestion of it. P. S.—Don't try to turn the Hecks into acid into alcohol. This column would poison any liquor.

Talking about nothing particular. Some people talk about their train of thought when it ain't nothing but a handcar.

Hurrah for Secretary State Kellogg. He's gone France one better by proposing a unilateral treaty with the great powers by which all signatories refuse to go to war with each other under any circumstances, etc., etc.—Elocera is a word used to make believe you know a lot more about a subject than you really do. But France says it must have safety, which reminds us of Mr. Billson, who had been attending an alumni dinner and when he left himself in at two o'clock in the morning Mrs. Billson shouted from the head of the stairs: "I don't know whether you my husband or a burglar, but I'm going to be on the safe side and shoot."

Say, have you been reading about those senators riding in a warm closed car past Andy Mellon's and Thaw's estates to the little unpainted, unheated shacks where those striking miners exist? Did you read their investigations and how they found many places where sick strikers had been expected only to die a few days later? To you and me, miners wages seem high and we say "But we don't get that much." Yes, but do you know that they work only from 1/2 to 1/4 of the year and the average pay is less than \$1,000? That they buy from company stores and live in company houses at prices set by the company? Why don't they leave? Because their names are on a black list and sent to other mines and employers, because they are union men. Next time you shovel in some coal in the old fire box give them the shove and then write your senator for action.

Women drivers are learning to demand only half the road, yeh, but the trouble is they only leave a quarter of the road on either side of 'em.

From the headlines of accidents it looks like the great human race is between the stork and the auto. Speeding Tourist Crashes Thru Bill Board—That about the only chance nowadays to get a glimpse of the scenery.

Landscaping New School House Site East Maine School

Golf school district No. 67 has made plans for big improvements. Last year they purchased a new school site comprising about 12 acres. This site is now being platted and landscaped so as to provide logical locations for buildings, playgrounds and driveways to the best advantage.

Kuehne & Reinhardt, nursery and landscapers of Glenview, are donating their services for the landscaping, it is said. The school board of this district consists of public spirited men, Fred M. Keger, president; August Beier, clerk, and Anton Lump. All sincere in giving their best effort toward procuring for the school district of Niles town a site and school house that a credit to the community.

Carnival given by B. School, District 60, at Town Hall, Friday eve 9, 1928, at 8 o'clock. Tickets 47-R

Small Town Election

The township election will be devoid of interest. The only office those of high school and a school trustee

M. E. CHURCH IS NEARING COMPLETION

The new Methodist Episcopal church and adjoining community house will be out of the hands of the contractor next month. Work has progressed to such a point that the first floor of the latter is completed. The finishing touches are being made in the gymnasium. The seats of the church are in place. The new Geneva pipe organ is being installed this week and the final carpenter work will be completed upon the pulpit and altar very soon. The painters and decorators have already completed some of their work.

The dedication of the complete building will be held in two sections. The exercises for the community building proper, will be held the week of March 18 to 23. The church will be dedicated on 1 and 8. Rev. John T. dignified for of the First Church, Chicago.

Hughes the following Sunday.

For the opening week of community house, a series of entertainments and events are being planned, complete announcement of which will be made very soon. Among the speakers will be Dan Brummitt, editor of the Northwestern Christian Advocate, who will be the guest of honor at a banquet. W. E. J. Gratz, who is connected with the young people's work of the church will be the headliner for the young people's rally.

In the program, the Tri Sigmas and other church organizations will have their particular part.

The building has progressed to such a point that its simple beauty is evident. Simplicity is the keynote of the entire building. New England style of architecture upon the exterior is augmented by the John Wesley type of church upon the interior.

Prof. Brown to Speak At Bensenville P.T.A. Meeting In March

Since the regular meeting night of Bensenville P. T. A. is the second Thursday of each school month we want to call special attention to the change in date for the March meeting. Our program committee were very anxious to hear Professor Brown, whose talks are always interesting and since the committee have been fortunate enough to secure him as the speaker and have changed the night of meeting as to be able to secure him let every one who is in any way interested in the public schools or P. T. A. set this evening aside from all other engagements and attend the P. T. A. ME 137-J-2

Grade School Pupils
Guests for Program

We want to tell you about our program of last week. Even though it was held the afternoon of February 22, a report of it is none the less interesting, so here goes.

A general assembly was called at the end of the fifth period, 1:30 o'clock Wednesday afternoon. Very soon afterwards pupils of the fifth, sixth, seventh and eighth grades came over and their group added to our own number filled the auditorium to capacity.

The program was divided into three distinct parts. The first part was of a patriotic nature, in observance of Washington's birthday. "America" and the "Star Spangled Banner" were sung by the entire assembly with Miss Roast directing and Ethel Hertel at the piano. Then an educational film of scenic Grand Canyon territory was shown immediately after which a feature film appropriate to day was seen. It told the story of Betsy Ross' fashioning of our American flag at the request of General Washington and incidental happenings of an historical nature.

While a comedy was being shown the stage was being made ready for the last two parts of the program.

The "Balloon Dance" offered by Frances Frankiewicz and Mary Margaret Clark was delightfully done by these two able little dancers of Miss Roast's interpretive dancing section. Kathryn Basso did her interpretation of Traumer as only she can do it. Kathryn has the ability to place herself convincingly in such a setting.

Lastly the one-act play "The Trysting Place" by Booth Tarkington, was most enjoyable and why wouldn't it be with these people in the cast?

Mrs. Curtis, Violet Lunning, Lancelot, Briggs, Arthur Wells, Mrs. Briggs, Emma Klehm, Jessie, Gertrude Weinrich, Rupert Smith, Dennis Landin, Mr. Ingoldby, Wilbert Hartman, mysterious voice, Richard Best.

It was cleverly done and the comical mixup which follows after the guilty lovers are forced to come from their hiding places provided laughter and squeals of delight for all.

As part of the laboratory work this week we had to make out an inner menu for each day of the week. The amount of meat used each day, the kind purchased and the method in preparing it had to be given. We are glad our mothers don't take vacations often.

Alaysia Welinske, '30
Florence Goerger, '30.

Cooks Learn Art
Of Dessert Making

For the past two weeks the cooking classes have been studying jello, gelatin, cakes with fat and cakes without fat.

Gelatin is made from the bones, gristle and skin of animals. By cooking bones a very long time a gelatinous substance is formed. In the manufacture of gelatin, water is evaporated from it and the mixture is dried. Jello is the prepared mixture containing sugar, coloring and flavoring and requires no soaking in cold water. Gelatin is the unprepared mixture and needs soaking before it can be used. Whipping jello or gelatin makes it double in bulk because air is beaten into it. We found that gelatin is more economic than jello. The flavor of gelatin is rather strong compared to jello, and therefore it is used with foods having a pronounced flavor. Pineapple, Bavarian cream is one of the many delicious desserts that can be made from gelatin.

The first cake without fat the class made was a sponge cake. The chief constituent of sponge cake is eggs. After the egg whites are added into the sponge cake batter, the mixture should not be beaten because no leavening agent is used and the egg whites are used to hold the air. The cakes containing fat that the class made were plain and pie cakes. The spice cake mixture was baked in muffin tins and covered with a cooked frosting.

As part of the laboratory work this week we had to make out an inner menu for each day of the week. The amount of meat used each day, the kind purchased and the method in preparing it had to be given. We are glad our mothers don't take vacations often.

Revolutionary—but so simple!

GENERAL ELECTRIC
Refrigerator

The air-tight steel casing, inside the coils, houses all the machinery of the General Electric Refrigerator. It also contains all the oil this machinery, and the tiny motor which operates it, will ever need to protect them from wear.

By the very nature of the design, the entire responsibility for satisfactory performance rests with the manufacturer. Every part of the machinery is built, tested and retested in the General Electric factory. The assembled mechanism is sealed in this electrically welded casing. It is then put through a final test. You never see the machinery—

we never see it. No one is responsible for it except General Electric and they guarantee its absolute efficiency.

When we deliver the refrigerator, all you need do is plug the cord into any electric outlet—just as you do your fan or iron. Automatically, quietly, economically, this mechanism which you never see and which you need never think about, gives you perfect refrigeration.

Easy payments can be arranged. If you want complete specifications of the various models, just send for a booklet. Then come in and see them.

Martens Electric Shop

H. H. MARTENS, Dealer

Franklin Park, Ill.

WILL YOU BE THERE?

When the referee holds the ball up for the jump and the centers of both teams are poised in readiness for that jump, when ten men in their various positions on the hardwood floor are keyed up to high tension awaiting the beginning of the fray and the whistle finally proclaims the battle begun—will you be there? Where? You ask. Could you possibly not know? We refer to the Palatine-Arlington basketball game, which is to be played tonight on the Heights floor. It will be a game well worth cancelling any appointment for and if you're not there you'll be sorry when you hear about it the next day. Oh! You say you will be there. That great! So long until tonight.

DIGGING

Hard work means nothing to a hen. She just keeps on digging worms and laying eggs, regardless of what the business prognosticators say about the outlook for this or any other year.

If the ground is hard, she scratches harder.

If it's dry she digs deeper.

If she strikes a rock she works around it.

If she gets a few more hours of daylight, she gives us a few more eggs.

But always she digs up worms, and turns them into hard-shelled profits as well as tender, profitable broilers.

Did you ever see a pessimistic hen? Did you ever hear of one starving to death waiting for worms to dig themselves to the surface?

Did you ever hear one cackle because work was hard?

Not on your life! They save their breath for digging and their cackle for eggs.

Success means digging. Are you?

G. A. A. NOTES

Girls Athletic Association held a regular meeting Wednesday afternoon at 3:40 in room No. 3.

Announcement was made by Miss Roast, advisor, that Miss Jackson, our school nurse, is securing a speaker from the Chicago Y. W. C. A. to come to us on March 7. The meeting will be held at 3:40 in the assembly and will be open to all girls in the school. The subject will be of special interest and we all are looking forward to this program.

A committee to sell refreshments at the Palatine-Arlington game Friday night was named by Margaret Helwig, president, as follows: Kathryn Dibley, Barbara Parke, Mildred Brockmeyer, Gertrude Weinrich, Gertrude Moehling and Florence Proctor.

SUBMITTS TO OPERATION

Lawrence Rateik, member of the Freshman class, was operated on for appendicitis Wednesday morning at the Elmhurst hospital. We all are hoping that Lawrence will experience a speedy recovery and return to school at an early date.

Appropriate and attractive name plates have been purchased to be placed on the frames of the pictures.

Members of the Sophomore class are to entertain with their first party of the year Saturday night in the gymnasium. They will have as their guests members of the Freshman class.

The program for the evening is being kept a secret but committees are working hard to make the occasion one of pleasure.

Fred Durni is chairman of arrangements with the following assistants:

Entertainment: Josephine Parke, chairman, Howard Prosser, Sylvia Brix, Dorothy Helm and Robert Muller.

Decorations: Raymond Meyer, Frank Jahn, Adam, Lois Kossack, Marjorie McNally.

Refreshments: Genevieve Krah, Gladys Bradley, Edward Erickson, and Fred Durni.

Miss Dora Koenenick and Mr. Ralph Cressy, are advisors of the class.

Why Can a Dry Mop Absorb Water and a Needle Float on the Surface of Water?

Molecular Theory

The molecular theory states that all matter is composed of molecules which are in constant motion and which attract one another, with the exception of gas molecules. The force of attraction of molecules is called molecular force and varies in different substances. The molecular force exerted between unlike molecules, or the molecules of different substances, is called adhesion. The force exerted between like molecules or molecules of the same substance, is called cohesion.

On the surface of a liquid the molecular force is greater than in any other part, because the adhesion of the water and air molecules is less than the cohesion of the water molecules of the surface and below. Hence, it follows that with less molecular attraction on the surface and more below the surface the molecules will crowd over toward the side, which pulls them the most. Therefore, the molecules will be closely packed on the surface of a liquid and there will be greater force between them. This compactness of molecules with greater attraction results in there being a thin film of denser liquid on the surface. The force which holds above is called surface tension, this film together, as described which varies in different liquids, oil having less surface tension than water. This is why oil is used to quiet rough seas and why blow soap bubbles instead of water bubbles. The surface tension of wa-

Class Meetings Were
Held Tuesday A. M.

A general assembly was called the second hour Tuesday morning. Our superintendent, V. J. Brown was in charge. His program for the first 30 minutes of the hour was a departure from the regular program, but proved immensely interesting.

Everyone likes a story and everyone enjoys being read to and so we all were pleased when Mr. Brown announced his intention of reading us a couple of stories by Van Dyke. The first one read is called "An Old Game" and by means of this story the author paints very vividly the story we all face that of playing the game of life. How will we play it, and just which one of us gets the most happiness?

Equally as subtle is Van Dyke's handling of the second story read "A Change of Air" in which he presents the relation of three neighbors who are very close to each other insofar as their properties are concerned, and yet each one is withheld from the other because of his religious and social ideas. A long journey to different cities cause them to learn that the situation is the same, that change of location has nothing to do with it and they return to their homes happy to resume their former routine.

The last part of the hour was taken by the regular business meetings of the different classes.

The Senior class reports that boys of their class have challenged boys of the Junior class to a basketball game in the near future. Provisions of the challenge are that the winning team and their class be entertained by the losing squad and their class.

Measurements were taken yesterday afternoon after school for senior caps and gowns.

Boys of the Junior class have accepted the challenge extended by the seniors and will meet them whenever a convenient time can be determined.

Freshmen heard reports of their secretary and treasurer. There was no other business to be taken up so the remainder of the time was spent in informal discussion.

Called Home

Miss Mary Funk of the clothing department was called to her home in Champaign Monday by the sudden death of her sister. We all are sorry about this and extend Miss Funk our sympathy.

MAKES GIFT TO SCHOOL

Mrs. R. Williams, who resides on Hawthorne street, is the donor of an addition to the artistic furnishings at the high school. The gift consists of two beautiful framed pictures. One is a copy of the famous painting "The Cleaners," which will be hung in the assembly. The other is a crayon drawing of "A Gothic Ruin." It is a fine piece of work with delicate lines blended to produce color effects in the black and white sketch. Mrs. Williams tells us that in the background of the drawing resemble a portion of Dryburgh Abbey, not far from Edinburgh, Scotland, where Sir Walter Scott is buried. This picture will be hung in one of the English rooms or the history room.

Appropriate and attractive name plates have been purchased to be placed on the frames of the pictures.

Sophomores Will

Have St. Patrick's

Party Sat. Night

Members of the Sophomore class are to entertain with their first party of the year Saturday night in the gymnasium. They will have as their guests members of the Freshman class.

The program for the evening is being kept a secret but committees are working hard to make the occasion one of pleasure.

Fred Durni is chairman of arrangements with the following assistants:

Entertainment: Josephine Parke, chairman, Howard Prosser, Sylvia Brix, Dorothy Helm and Robert Muller.

Decorations: Raymond Meyer, Frank Jahn, Adam, Lois Kossack, Marjorie McNally.

Refreshments: Genevieve Krah, Gladys Bradley, Edward Erickson, and Fred Durni.

Miss Dora Koenenick and Mr. Ralph Cressy, are advisors of the class.

Why Can a Dry Mop Absorb Water and a Needle Float on the Surface of Water?

Molecular Theory

The molecular theory states that all matter is composed of molecules which are in constant motion and which attract one another, with the exception of gas molecules. The force of attraction of molecules is called molecular force and varies in different substances. The molecular force exerted between unlike molecules, or the molecules of different substances, is called adhesion. The force exerted between like molecules or molecules of the same substance, is called cohesion.

On the surface of a liquid the molecular force is greater than in any other part, because the adhesion of the water and air molecules is less than the cohesion of the water molecules of the surface and below. Hence, it follows that with less molecular attraction on the surface and more below the surface the molecules will crowd over toward the side, which pulls them the most. Therefore, the molecules will be closely packed on the surface of a liquid and there will be greater force between them. This compactness of molecules with greater attraction results in there being a thin film of denser liquid on the surface. The force which holds above is called surface tension, this film together, as described which varies in different liquids, oil having less surface tension than water. This is why oil is used to quiet rough seas and why blow soap bubbles instead of water bubbles. The surface tension of wa-

ter is great enough to hold a needle upon it, if the needle be placed upon it very gently without breaking the film.

If we place a small bore glass tube in water, we find that the water rises in the tube above the surface of the water. Molecular force causes this and is great enough to overcome gravity to a small extent. The process by which this happens is called capillary action. The water and the glass molecules attract each other with considerable force and they continue to attract until the weight of water is great enough to stop further movements of the water molecules, although in fact they still attract each other with no effect. Since the glass molecules are stationary and the water molecules are moveable, the glass molecules attract the water molecules up to them. These attractions are so very rapid that the water rises in the tube very quickly. Surface tension and cohesion are very important in capillary action, for without them there would be only a thin film of water along the sides of the tube. When these molecules first start to attract or go up the tube, the surface tension of the liquid will not let them separate from the denser film of water on the surface, and cohesion will not let the film separate from the water under it. Hence, with these two forces working, the molecules on the side of the tube have to pull the liquid up with them. If the water cannot advance with the molecules these can go only a very short distance making the surface of the liquid in the tube look like a "U" with the top cut off.

Cloth is composed of many minute fibres, and these fibres have small air spaces between them. These spaces are like little tubes running through the cloth, and when the rags of a mop come in contact with water, capillary action takes place and the water fills the

small tubes of the cloth. The mop thus absorbs the water. The amount of liquid certain materials will absorb depends upon the quantity and diameter and length of the air tubes in the cloth. Blotters, lamp wicks, and towels all depend upon capillary action for their use.

Evaporation can only be explained by the molecular theory. Liquids evaporate because some of their molecules, traveling toward the surface, have so high a velocity that they pierce the surface tension of the liquid and fly off into space. These molecules are by no means lost for they unite with other molecules and come down again in the form of rain. Thus it is that the oceans indirectly water crops that are miles away. Heating a liquid increases evaporation by lessening the surface tension and increasing the activity of the molecules, thus on hot days we have an increase of evaporation. Alcohol, ether, gasoline, etc., evaporate very fast because their surface tension is small.

—Daniel Clark, '29

ITASCA

The Dorcas Circle of the Presbyterian church will hold a take sale in the church basement Friday, March 9 at 3 o'clock.

Our enterprising merchant, Mr. Emil Mensching, has added a millinery department to his dry goods store.

The March meeting of the Itasca P. T. A. will be held Monday evening, March 5, and promises to be a very interesting event.

A large party of friends gathered at the home of Mr. and Mrs. H. H. Franzen Wednesday to welcome Mr. and Mrs. Ray Franzen, who have recently returned from their honeymoon. Cards and bunco were enjoyed and delicious refreshments were served.

Carpenters are busy on the new addition for the Itasca Country Club house. When completed this will afford accommodations for 60 lockers for the ladies and a spacious lounge room. They expect to have it ready for use at the beginning of the season.

Mrs. Baruth attended a birthday luncheon party at the home of Mrs. Kahle in Bensenville Wednesday.

Mrs. Andrew Madson returned from Sherman hospital, Elgin Thursday very much improved in health.

The Scott-Stewart family, who

have been living in the Degenkolb house, will move soon into the Schumacher house on Division street.

Paul Boehne entertained a company of little friends Monday to celebrate his 6th birthday.

A large company of Masons and their friends attended the party given Saturday evening at the hall. Before the dancing, the committee had arranged a clever entertainment consisting of singing, readings and some very astonishing local hits, which served to put everyone in good humor.

AMBULANCE FUNERAL HOME

CLOAKING SORROW

When sorrow pervades the household of the one who has passed on, dignity cloaks the grimness of it. There is pride in a worthy funeral. It is a fit tribute to the one who has gone before.

We are fully prepared to provide such a dignified service.

PALATINE

Mr. and Mrs. Roland Dahlstrom have gone to Montana on a wedding trip where they will visit his brother. When they return they will reside in the upper flat of the Haffercamp house on North Broadway street.

Miss Mildred Burkhardt visited her sister, Mrs. Campbell Primrose at Hunting Ave. Sunday.

Mrs. Fred Sternberg entertained a number of friends for her birthday Friday afternoon and evening.

Mrs. Albert Schmidt and daughter, Grace, are visiting her parents in Chicago a few days this week.

Mrs. George Anderman and daughter, Eleanor, are here from Albuquerque visiting relatives and old friends.

Word was received from Barrington that Mr. and Mrs. Roy Klepper are the parents of a daughter. Mrs. Klepper was formerly Ida Witt of this village.

Mrs. Hattie Cropper is spending some time visiting relatives and friends in Chicago.

Mr. and Mrs. Ed. Sene are the parents of a baby girl born Friday.

Mr. and Mrs. Elmer Hiede have returned from their short wedding trip.

Mr. and Mrs. Ed. Homier are rejoicing over the arrival of a daughter born Tuesday.

Mr. Earl Blum has purchased a Whippet coach.

The Rebekahs will have a school of instruction Thursday afternoon and evening under Mrs. Flora Sheets.

Mr. and Mrs. Arthur Fleitner and son visited at the Conrad Hildebrandt home Sunday.

Mrs. Pearl Powers visited her daughter a few days last week.

Mrs. Wenegar was a Chicago visitor Wednesday.

Mr. and Mrs. Herman Meyer and daughter visited Mr. and Mrs. C. Hildebrandt Tuesday evening.

Mr. and Mrs. Godknecht entertained at a luncheon and bunco party on Tuesday.

Mr. and Mrs. Isaac Blum and Mr. and Mrs. Earl Blum visited Mr. Blum's aunt, Mrs. Cassman, (ninety three years old) of Chicago Wednesday evening.

Buy good wall paper at Palatine at a price you will be glad to pay. A. P. Anderson, Phone 61-J. (4-1)

Mary Sampson entertained a number of her schoolmates at a bunco birthday party Saturday afternoon.

Grace Dierker had a leap year birthday, Feb. 29.

Mrs. Volmer is again seen on our streets. She was recently quite sick, but with her hardy constitution there seems to be nothing which she can not do.

Members of the Eastern Star enjoyed an old time dance following their regular meeting last Friday night. Concertina music was provided and with an efficient caller, some of the new timers who did not attempt to dance, had as much fun watching the others as did the old timers, themselves.

Miss Flora Sheets of Chicago, past president of the Rebekah Assembly is holding a school of instruction for Palatine Rebekah Lodge No. 116 Thursday afternoon and evening.

St. Paul's Ladies' Aid is planning a very fine program for their meeting March 8. All members are urged to attend and bring a friend. A missionary, who is on a furlough will be present and it will be a very interesting program. Do not fail to attend.

The auxiliary to the American Legion, of about \$40.00 for their luncheon and card party Wednesday afternoon. All report having a fine time.

Drop in and see the all electric Atwater Kent radios at Harry Kruse's.

Mr. and Mrs. Fred Wickersheim spent Tuesday at Barrington.

Mrs. Flora Joiner is assisting in caring for Mrs. Leachner, who is not as well as her friends would like her to be.

Clarence Hans was confined to his bed for a few days with a severe sore throat.

Mrs. C. D. Taylor is doing nicely at the Palatine hospital and would enjoy a card or a word from her many friends.

Mrs. Alma Arps and Mrs. Elvora Foster attended the installation of officers of the Woman's Relief Association of Cook county in Chicago Monday. Mrs. Foster was installed as Treasurer for the sixth term.

Mrs. Emeline Godknecht entertained the Neighborhood Club at her home Tuesday afternoon. Mrs. Helen Paltz of Wheeling and Mrs. Helma Paltz were guests.

Mr. and Mrs. Paul Wilson entertained the Modoc Club at their home last Saturday evening. Bunco was enjoyed and prizes were won by Mrs. Ethel Godknecht, Mr. Elvira Foster, Miss Margaret Stroker and William Kessler. At midnight a delicious lunch was served. Those present were: Mr. and Mrs. William Kessler of Barrington, Mr. and Mrs. Elvira Foster, Mr. and Mrs. Walter Stroker, Mr. and Mrs. Wm. Godknecht, Miss Margaret Stroker and Mr. Walter Witt.

Mrs. Emma Stroker entertained the Needle Club at her home last Thursday. The dresser scarf was won by Mrs. Clara Schierding. The club will next be entertained by Mrs. Miller, when a very pretty saaten quilt will be quilted.

Mrs. Herschberger of Libertyville passed away at her home last week. She was a sister of the late Henry Knigge. She leaves two daughters, Cora and Luella, who were both well known here.

Mr. and Mrs. Ray Fedler are leaving Palatine April 1 and will move to Arlington Heights where they will manage the new peony farm started by the Klein's Nursery. We are sorry to lose them, but Palatine can furnish Arlington Heights with any kind of managers.

Mrs. Korgiebel visited her daughters in Chicago Wednesday.

Mr. Frank DeBerg returned to his work Thursday after having been home a month owing to illness.

Mr. and Mrs. W. G. Ost attend the funeral today at Mandelheim of Herman Kubian.

Four Palatine young men had the pleasure Tuesday night of "riding the goat" into the Elks. They were Dr. McLaughlin, E. H. Otten, Dorff, H. H. Deverman and Robert Mosser. A merry time was had by all.

Judge Stroker and his wife celebrated their fourteenth wedding anniversary by spending Tuesday in Chicago in Chicago and attending the theatre.

Arthur Knigge of Gary was a Palatine visitor Sunday.

Mrs. Ben Babcock and Mrs. Aspinwall were Palatine visitors Wednesday, attending the luncheon and card party given by the ladies auxiliary.

Oscar Milburn and Ray Salsman of the Milburn Construction Co. were in Palatine this week. Mr. Milburn has recently returned from a trip to California. That firm was the low bidder upon a large paving job at Mt. Prospect, upon which bids were opened this week and have also been awarded jobs in Des Plaines and Glenview.

Mrs. E. J. Weber entertained Mrs. E. Melchior of Chicago Wednesday.

Mrs. Henry Mess is quite ill.

The W. H. M. S. met with Mrs. Nichols Wednesday afternoon. Mrs. Stafford gave as a reading Longfellow's "Clock on the Stairs," which was greatly enjoyed.

Frank Gahlbeck has rented the upper Glad flat on North Bothwell street.

The lights are burning late at the home of E. J. Weber. The reason is a new Sonora radio which he has purchased of Harry Schlenker.

Mrs. Orth is substituting in the primary room of the school taking the place of Miss Mair on account of the death of the latter's uncle.

The first of perhaps a series of one o'clock luncheons and card parties was held at the L. O. O. F. hall by the Ladies Auxiliary Wednesday afternoon. The event proved to be very popular and was a big success. The luncheon was followed by cards, at which there were 18 tables, the play being divided between bunco, bridge and pinocle. The winners of the prizes were: Mrs. M. E. Plate, Mrs. H. H. Deverman, Mrs. Henry Langhorst, Miss Schick, Mrs. Melser, of Chicago; Mrs. Thompson, Mrs. Aspinwall, Mrs. L. Nerge, Mrs. C. Wente, Mrs. Forsyn, Mrs. Gibbs, Mrs. Clark, Mrs. Perry, Mrs. Helen Schmidt and Mrs. Harry Kruse.

The Woman's Foreign Missionary society will meet with Mrs. Marvin Greener on Thursday, March 8 at 2:30 o'clock. A group of young ladies will present a founders day program under the direction of Mrs. Stafford.

Mrs. Emma Stroker entertained friends at a quilting bee Wednesday, serving supper at six o'clock.

Henry Wildhagen returns to his duties on rural route 2 today. John Wente has been serving as substitute carrier two weeks.

The daughter of Mr. and Mrs. Ed. Ost of Barrington was taken to the Francis Willard hospital and an operation for appendicitis will probably be performed today.

Mrs. Claribel Fish of Woodstock spent Monday at John Umbdenstock's.

Jack O'Brien celebrated his 8th birthday by giving a party to his classmates at school.

BENSENVILLE

Postmaster Ben Helfers and wife from Arlington Heights called on his sister, Mrs. Melvin Elving Monday evening.

Mrs. Ed. Bartholme, who is still confined to her home by illness is reported on the gain and expects to be able to be out in a few days.

LaVerne Smethurst and family of center street departed Monday evening for a visit with parents and relatives at Boscobel and Waukegan, Wisconsin.

Mrs. Marion Rands of Chicago called on Bensenville friends Saturday afternoon.

Mr. George Franzen, who intended starting for Arkansas first of the week, postponed his trip till the last of this week. Said he could not afford to miss the presentation of the 25 year member jewels at the M. W. A. meeting Monday evening as long as he was one of the members to receive a jewel.

Professor Fenton, who has been attending a convention in the east is expected back Sunday.

Mr. Schwartz, who lives on Irving Park boulevard, not far from the Mount Prospect road, has purchased a brand new Buick. The car is a beauty, and it is certain that the Schwartz family will get a great deal of pleasure out of the machine during the summer months.

Mr. F. C. Fenton, left Thursday for Boston where he will remain for five or six days. Mrs. Fenton, and Mr. Fenton's niece, Dorothy, went to Wisconsin Friday afternoon, but were back in Bensenville again Sunday.

Mr. Dahl, who has been having so much luck with his store business, had not been threatened since. The only sign that burglars have visited the Drug store is the broken bevel plate glass in the door. A light is left burning in the display window every night. The total of the robbery which was stolen from the store amounted to about \$450. It is hoped that the Dahl family do not have any more such ill luck as they have already have their little daughter Alice to take care of.

Harold Klevan's sister came to Bensenville for a visit Saturday, Feb. 25. She attended the Libertyville-Bensenville game and therefore considered her visit particularly fruitful.

In last week's paper Mr. Alfred Hinz called my attention to a very serious error committed by myself, which I want to correct here and now. It was his sister and not his mother's sister, whom Mrs. A. Hinz is visiting in Portland, Oregon.

The Fischer family, Lincoln street, had company from Elmhurst one day last week. Among their guests was Mr. Alonzo Fischer, Mr. and Mrs. Harry Miller.

Miss Gerda Mohri has not been able to attend school because of a slight illness.

Miss Violet Kirchoff and her brother, Arnold, went to Chicago Saturday to see the "Two Black Crows." The piece was very entertaining and enjoyable to both.

Mr. Roger Morse has been verbatim making a bust of Miss Florence Stock. He just recently completed the bust of Lincoln which he presented to the school, and not satisfied with that he is taking up the work even further. Before Roger has definitely launched upon a career he will have done very creditable work in the sculpturing line.

Miss Florence Stock and Miss Esther Knaack visited the Eickelmann girls in Wooddale Sunday evening.

Mrs. B. L. LaSalle is much improved. She was up and around as

well as ever. The illness seemed to be serious for a time, and appeared to cling to her a long period, but she has gotten well away from its grip now and will be seen among us again.

The Guthrie family, who formerly lived on York street, near Irving Park Boulevard, moved Monday. They are now making their home in Medinah. Miss Ethel Guthrie, who is a Junior in high school, will continue her studies here so as not to be held back another year.

Pupils of Fairview School are Protected From Diphtheria

The one room school of Fairview has an enrollment of 39 pupils and 27 were immunized from diphtheria before the school opened. The inoculations were given by Dr. Dodge and county nurse, Mary Flynn in the school room. The three inoculations were made Feb. 17, Feb. 27, and March 2. Out school has 1st, 2nd and 3rd grades. All the children were very brave and every one has been getting along nicely.

Baby Eats Face-Powder; Dies

February 29, the two year old baby of Mr. and Mrs. Robt. Sutherland, of Hessing Street, died in the Keystone hospital, where it was rushed Tuesday night when it took sick after eating face powder which it got hold of before it was noticed.

Twelve Years Old; Only Third Birthday

Mary Doherty of Erie Street, celebrated her third birthday with a party at home Wednesday, February 29. She is now 12 years old but this is only her third birthday.

Chicagoan Fined for Violating Game Law

Daniel Insolata of Chicago who was arrested for hunting rabbits out of season and also without a hunting license was fined \$40.00 and costs when he appeared for trial. He was arrested by the chief of police when he caught him hunting rabbits with a club, after he had killed a rabbit. Rabbit is an expensive meal when it costs \$50.00 for only one.

FRANKLIN PARK

Mr. and Mrs. Wallace Cundiff announce the birth of a daughter, Saturday, Feb. 25.

The teachers of the grade school were guests at tea of the committee of education of the Woman's Club Monday. The occasion was the presentation by the club of furnishings for a rest room. This committee had furnished a room for the teachers in the high school building.

Mrs. Marion Watson, who is visiting a friend in Chicago while convalescing from her recent illness, is much improved and hopes to be back at her home soon.

Work has been begun on Pete Mulroy's new home on Wagner street. We hope many more will be started soon. We have room for them.

Mrs. L. E. Fero entertained her Sunday school class at her home Saturday, Feb. 25. The girls spent a delightful afternoon. Games followed by refreshments.

The service at the M. E. church Sunday evening, March 11, will be given over to Mr. S. K. Dong, Frank of Holskei, Korea. He is sent to the U. S. by his government and will give us a very interesting talk. Let us give him a full house.

The Franklin Park M. E. choir will practice this Saturday night at the church. We were glad to see so many young people in the choir Sunday night. Franklin Park has quite a bunch of young ladies and men that have musical talent and we feel sure Mr. Taylor, the director, will develop some fine voices among these young people.

What has happened about our paving? Doesn't appear as though we were going to get out of the mud for another year. Can't blame some people for making a fuss about paving when you see the way their shoes look when they cross Pacific avenue.

Willey McFall returned from the Blue Island hospital Sunday and we know his family is glad to have him home. His doctor states he will have to be idle for some six weeks which will be quite tiresome for a man who has always been so active, but he should be happy that his accident was not any worse than it was. All his friends wish him a speedy recovery.

We are glad to see Earnest Siebold is running for Sanitary Trustee and we wish him success. This part of Cook county should have a representative and we can only hope Mr. Siebold will get elected and give the district some needed improvements.

This is Leap Year and we hope to see some of these young bachelors get married for it isn't nice to see so many folks get set in their ways too much, especially in a growing community like Franklin Park, you can have most any kind of a business or professional man out of the bachelor list this year you want, so look well to your ball and don't make any mistakes.

Mrs. Harry Collins is confined to her bed by illness and expects to go to a hospital later for an operation for gopher. Friends wish her a speedy recovery.

The speaker announced for Sunday evening, March 11, will be the morning service instead. His dates conflicting make this change necessary.

The March circle of the Ladies' Aid are preparing an evening of entertainment for March 16. The program will be given in the auditorium of the public school. Tickets on sale by Mrs. Bert Sweet and her committee.

Northwest Suburban Basketball League

Standings including games of Feb. 28:

	W.	L.
Niles Center	7	0
Northbrook	5	3
St. Paul's	5	4
St. Peter's	4	4
Morton Grove	1	6
Glenview	1	7

Games Next Week
Monday, March 5—Glenview vs. Northbrook at St. Peter's.
Tuesday, March 6—Niles Center vs. Northbrook at St. Peter's.

Thursday, March 8—St. Peter's vs. Morton Grove at St. Peter's.
Thursday, March 8—Niles Center vs. St. Paul's at Niles Center.

Niles Center defeated Northbrook 27-19 last Thursday in a fast game featuring some pretty long shots by Northbrook. Northbrook got away with a lead of 4-0 at the beginning of the game, but could not hold it when the Niles Center five got started and kept the lead throughout the game.

Northbrook, 19—B. F. T. P.
Hoffler, f. 3 2 2
Holste, f. 0 0 2
G. Lutz, f. 0 0 2
McLachlan, c. 0 0 1
W. Lutz, c. 0 0 0
Landwehr, g. 0 0 2
Richards, g. 0 0 1

Niles Center, 27—B. F. T. P.
Honickel, f. 4 3 8
Farrell, f. 1 0 1
Lange, c. 0 0 3
Siegel, g. 0 0 0
Ruehrdanz, g. 2 1 1

Niles Center traveled to St. Peter's last Monday and beat St. Peter's in a fast game 19-18. It was a clean game and anybody's till the final whistle blew. Bizer with 10 points led St. Peter's and Honickel with 8 points led Niles Center.

Niles Center, 19—B. F. T. P.
Honickel, f. 4 3 8
Farrell, f. 1 0 1
Lange, c. 0 0 3
Siegel, g. 0 0 0
Ruehrdanz, g. 2 1 1

a Successful Six now winning Even Greater Success

Impressive Six-Cylinder Performance at Its Most Impressive Price

PERFORMANCE—That's the outstanding factor in the sensational success of the New Series Pontiac Six! And real six-cylinder performance, too!... The power and high-speed endurance of the largest engine used in any six of its price class... The smoothness and flexibility assured by the GMR cylinder head—that famous General Motors Research development available on no other low-priced six... The reliability, economy and safety resulting from numerous other great new advancements in design—the cross-flow radiator with thermostat control, improved manifolding and carburetor with accelerating pump, "down draft" crankcase ventilation, fuel pump with gasoline filter and four-wheel brakes... See this lowest priced General Motors Six at any of the dealers listed below. Drive it. Compare it with any other car at or near its price—and you will know why everyone says it is the biggest, most beautiful, most modern six ever offered at \$745!

PRICES: 2-Door Sedan, \$745; Coupe, \$745; Sport Roadster, \$745; Phaeton, \$775; Sport Cabriolet, \$795; 4-Door Sedan, \$825; Sport Landau Sedan, \$875; Oakland All-American Six, \$1045 to \$1265. All prices at factory. Delivered prices include minimum handling charges. Easy to pay on the liberal General Motors Time Payment Plan.

Books Learn Art Of Dessert Making

For the past two weeks the cooking classes have been studying jello, gelatine, cakes with fat and cakes without fat.

Gelatine is made from the bones, gristle and skin of animals. By cooking bones a very long time a gelatinous substance is formed. In the manufacture of gelatine, water is evaporated from it and the mixture is dried. Jello is the prepared mixture containing sugar, coloring and flavoring and requires no soaking in cold water. Gelatine is the unprepared mixture and needs soaking before it can be used. Whipping jello or gelatine makes it double in bulk because air is beaten into it. We found that gelatine is more economical than jello. The flavor of gelatine is rather strong compared to jello, and therefore it is used with foods having a pronounced flavor. Pineapple, Bavarian cream is one of the many delicious desserts that can be made from gelatine.

The first cake without fat the class made was a sponge cake. The chief constituent of sponge cake is eggs. After the egg whites are folded into the sponge cake batter, the mixture should not be beaten because no leavening agent is used and the egg whites are used to hold the air. The cakes containing fat that the class made were plain and spice cakes. The spice cake mixture was baked in muffin tins and covered with a cooked frosting. As part of the laboratory work this week we had to make out a dinner menu for each day of the week. The amount of meat used each day, the kind purchased and the method in preparing it had to be given. We are glad our mothers don't take vacations often.

Aloysia Weinske, '30
Florence Goerger, '30.

Grade School Pupils Guests for Program

We want to tell you about our program of last week. Even though it was held the afternoon of February 22, a report of it is none the less interesting, so here goes.

A general assembly was called at the end of the fifth period, 1:30 o'clock Wednesday afternoon. Very soon afterwards pupils of the fifth, sixth, seventh and eighth grades came over and their group added to our own number filled the auditorium to capacity.

The program was divided into three distinct parts. The first part was of a patriotic nature, in observance of Washington's birthday. "America" and the "Star Spangled Banner" were sung by the entire assemblage with Miss Roast directing and Ethel Hertel at the piano. Then an educational film of scenic Grand Canyon territory was shown immediately after which a feature film appropriate to day was seen. It told the story of Betsy's Ross, fashioning of our American flag at the request of General Washington and incidental happenings of an historical nature.

While a comedy was being shown the stage was being made ready for the last two parts of the program.

The "Balloon Dance" offered by Frances Frankiewicz and Mary Margaret Clark was delightfully done by these two able little dancers of Miss Roast's interpretive dancing section. Kathryn Bazso did her interpretation of Traumeri as only she can do it. Kathryn has the ability to place herself convincingly in such a setting.

Lastly the one-act play "The Trysting Place" by Booth Tarkington, was most enjoyable and why wouldn't it be with these people in the cast?

Mrs. Curtis, Violet Lunning, Lanelet, Briggs, Arthur Wells, Mrs. Briggs, Emma Kelm, Jessie, Gertrude Weinrich, Rupert Smith, Dennis Landmeier; Mr. Ingoldsbey, Wilbert Hartman; mysterious voice, Richard Best.

It was cleverly done and the comical mixup which follows after the guilty lovers are forced to come from their hiding places provided laughter and squeals of delight for all.

WILL YOU BE THERE? When the referee holds the ball up for the jump and the centers of both teams are poised in readiness for that jump, when ten men in their various positions on the hardwood floor are keyed up to high tension awaiting the beginning of the fray and the whistle finally proclaims the battle begun—will you be there? Where? You ask. Could you possibly not know? We refer to the Palatine-Arlington basketball game, which is to be played tonight on the Heights floor. It will be a game well worth cancelling any appointment for and if you're not there you'll be sorry when you hear about it the next day. Oh! You say you will be there. That great! So long until tonight.

DIGGING
Hard work means nothing to a hen. She just keeps on digging worms and laying eggs, regardless of what the business prognosticators say about the outlook for this or any other year.

If the ground is hard, she scratches harder. If it's dry she digs deeper. If it's wet she digs where it's dry. If she strikes a rock she works around it. If she gets a few more hours of daylight, she gives us a few more eggs.

But always she digs up worms, and turns them into hard-shelled profits as well as tender, profitable broilers.

Did you ever see a pessimistic hen? Did you ever hear of one starving to death waiting for worms to dig themselves to the surface?

Did you ever hear one cackle because work was hard? Not on your life. They save their breath for digging and their cackle for eggs.

Success means digging. Are you? Contributed: Natl. Business Magazine.

G. A. A. NOTES
Girls Athletic Association held a regular meeting Wednesday afternoon at 3:40 in room No. 3. Announcement was made by Miss Roast, advisor, that Miss Jackson, our school nurse, is securing a speaker from the Chicago Y. W. C. A., to come to us on March 7. The meeting will be held at 3:40 in the assembly and will be open to all girls in the school. The subject will be of especial interest and we all are looking forward to this program.

A committee to sell refreshments at the Palatine-Arlington game Friday night was named by Margaret Helwig, president, as follows: Kathryn Dibley, Barbara Parke, Mildred Brockmeyer, Gertrude Weinrich, Gertrude Moehling and Florence Proctor.

SUBMITS TO OPERATION
Lawrence Rateik, member of the Freshman class, was operated on for appendicitis Wednesday morning at the Elmhurst hospital. We all are hoping that Lawrence will experience a speedy recovery and return to school at an early date.

MAKES GIFT TO SCHOOL
Mrs. R. Williams, who resides on Hawthorne street, is the donor of an addition to the artistic furnishings at the high school. The gift consists of two beautiful framed pictures. One is a copy of the famous painting "The Gleaners," which will be hung in the assembly. The other is a crayon drawing of "A Gothic Ruin." It is a fine piece of work with delicate lines blended to produce color effects in the black and white sketch. Mrs. Williams tells us that a part in the background of the drawing resemble a portion of Dryburgh Abbey, not far from Edinburgh, Scotland, where Sir Walter Scott is buried. This picture will be hung in one of the English rooms or the history room.

Appropriate and attractive name plates have been purchased to be placed on the frames of the pictures.

Sophomores Will Have St. Patrick's Party Sat. Night

Members of the Sophomore class are with their first party of the year Saturday night in the gymnasium. They will have as their guests members of the Freshman class.

The program for the evening is being kept a secret but committees are working hard to make the occasion one of pleasure.

Fred Durni is chairman of arrangements with the following assistants: Entertainment: Josephine Parke, chairman, Howard Prosser, Sylvia Brix, Dorothy Helm and Robert Muller.

Decorations: Raymond Meyer, Frank Jahn, Edward Adam, Lois Kossack, Marjorie McNally.

Refreshments: Genevieve Krah, Gladys Bradley, Edward Erickson, and Fred Durni.

Miss Dora Koenenick and Mr. Ralph Cressy, are advisors of the class.

Why Can a Dry Mop Absorb Water and a Needle Float On the Surface of Water?
Molecular Theory

The molecular theory states that all matter is composed of molecules which are in constant motion and which attract one another, with the exception of gas molecules. The force of attraction of molecules is called molecular force and varies in different substances. The molecular force exerted between unlike molecules, or the molecules of different substances, is called adhesion. The force exerted between like molecules or molecules of the same substance, is called cohesion.

On the surface of a liquid the molecular force is greater than in any other part, because the adhesive force of the water and air molecules is less than the cohesion of the water molecules of the surface and below. Hence, it follows that with less molecular attraction on the surface and more below the surface the molecules will crowd over toward the side, which pulls them the most. Therefore, the molecules will be closely packed on the surface of a liquid and there will be greater force between them. This compactness of molecules with greater attraction results in there being a thin film of denser liquid on the surface. The force which holds above is called surface tension, this film together, as described which varies in different liquids, oil having less surface tension than water. This is why oil is used to quiet rough seas and why we blow soap bubbles instead of water bubbles. The surface tension of wa-

Class Meetings Were Held Tuesday A. M.

A general assembly was called the second hour Tuesday morning. Our superintendent, V. J. Brown was in charge. His program for the first 30 minutes of the hour was a departure from the regular program, but proved immensely interesting.

Everyone likes a story and everyone enjoys being read to and so we all were pleased when Mr. Brown announced his intention of reading us a couple of stories by Van Dyke. The first one read is called "An Old Game" and by means of this story the author paints very vividly the story we all face that of playing the game of life. How will we play it, and just which one of us gets the most happiness?

Equally as subtle is Van Dyke's handling of the second story read "A Change of Air" in which he presents the relation of three neighbors who are very close to each other insofar as their properties join each other, and yet each is withheld from the other by cause of religious and social ideas. A long journey to different cities cause them to learn that the situation is the same, that change of location has nothing to do with it and they return to their homes happy to resume their former routine.

The last part of the hour was taken by the regular business meetings of the different classes.

The Senior class reports that boys of their class have challenged boys of the Junior class to a basketball game in the near future. Provisions of the challenge are that the winning team and their class be entertained by the losing squad and their class.

Measurements were taken yesterday afternoon after school for senior caps and gowns.

Boys of the Junior class have accepted the challenge extended by the seniors and will meet them whenever a convenient time can be determined.

Freshmen heard reports of their secretary and treasurer. There was no other business to be taken up so the remainder of the time was spent in informal discussion.

Called Home
Miss Mary Funk of the clothing department was called to her home in Champaign Monday by the sudden death of her sister. We all are sorry about this and extend Miss Funk our sympathy.

ter is great enough to hold a needle upon it, if the needle be placed upon it very gently without breaking the film.

If we place a small bore glass tube in water, we find that the water rises in the tube above the surface of the water. Molecular force causes this and is great enough to overcome gravity to a small extent. The process by which this happens is called capillary action. The water and the glass molecules attract each other with considerable force and they continue to attract until the weight of water is great enough to stop further movements of the water molecules, although in fact they still attract each other with no effect. Since the glass molecules are stationary and the water molecules are moveable, the glass molecules attract the water molecules up to them. These attractions are so very rapid that the water rises in the tube very quickly. Surface tension and cohesion are very important in capillary action, for without them there would be only a thin film of water along the sides of the tube. When these molecules first start to attract or go up in the tube, the surface tension of the liquid will not let them separate from the denser film of water on the surface, and cohesion will not let the film separate from the water under it. Hence, with these two forces working, the molecules on the side of the tube have to pull the water up with them. If the water cannot advance with the molecules these can go only a very short distance making the surface of the liquid in the tube look like a "U" with the top cut off.

Cloth is composed of many minute fibres, and these fibres have small air spaces between them. These spaces are like little tubes running through the cloth, and when the rags of a mop come in contact with water, capillary action takes place and the water fills the

small tubes of the cloth. The mop thus absorbs the water. The amount of liquid certain materials will absorb depends upon the quantity and diameter and length of the air tubes in the cloth. Blotters, lamp wicks, and towels all depend upon capillary action for their use.

Evaporation can only be explained by the molecular theory. Liquids evaporate because some of their molecules, traveling toward the surface, have so high a velocity that they pierce the surface tension of the liquid and fly off into space. These molecules are by no means lost for they unite with other molecules and come down again in the form of rain. Thus it is that the oceans indirectly water crops that are miles away. Heating a liquid increases evaporation by lessening the surface tension and increasing the activity of the molecules, thus on hot days we have an increase of evaporation. Alcohol, ether, gasoline, etc., evaporate very fast because their surface tension is small.

—Daniel Clark, '29

ITASCA
The Dorcas Circle of the Presbyterian church will hold a bake sale in the church basement Friday, March 9 at 3 o'clock.

Our enterprising merchant, Mr. Emil Mensching, has added a millinery department to his dry goods store.

The March meeting of the Itasca P. T. A. will be held Monday evening, March 5, and promises to be a very interesting event.

A large party of friends gathered at the home of Mr. and Mrs. H. H. Franzen Wednesday to welcome Mr. and Mrs. Ray Franzen, who have recently returned from their honeymoon. Cards and bunco were enjoyed and delicious refreshments were served.

small tubes of the cloth. The mop thus absorbs the water. The amount of liquid certain materials will absorb depends upon the quantity and diameter and length of the air tubes in the cloth. Blotters, lamp wicks, and towels all depend upon capillary action for their use.

Evaporation can only be explained by the molecular theory. Liquids evaporate because some of their molecules, traveling toward the surface, have so high a velocity that they pierce the surface tension of the liquid and fly off into space. These molecules are by no means lost for they unite with other molecules and come down again in the form of rain. Thus it is that the oceans indirectly water crops that are miles away. Heating a liquid increases evaporation by lessening the surface tension and increasing the activity of the molecules, thus on hot days we have an increase of evaporation. Alcohol, ether, gasoline, etc., evaporate very fast because their surface tension is small.

—Daniel Clark, '29

ITASCA
The Dorcas Circle of the Presbyterian church will hold a bake sale in the church basement Friday, March 9 at 3 o'clock.

Our enterprising merchant, Mr. Emil Mensching, has added a millinery department to his dry goods store.

The March meeting of the Itasca P. T. A. will be held Monday evening, March 5, and promises to be a very interesting event.

A large party of friends gathered at the home of Mr. and Mrs. H. H. Franzen Wednesday to welcome Mr. and Mrs. Ray Franzen, who have recently returned from their honeymoon. Cards and bunco were enjoyed and delicious refreshments were served.

*The Spirit of Working With and for One Another--Cooperation
--Is the Vital Force in the Development of Any Community*

The development of Mt. Prospect has been due to the loyal effort of progressive men and women of our community circle.

What wonderful progress we would make if every citizen of Mt. Prospect were included in this circle! How rapidly we would forge to the front in growth and prosperity; the center of business and social activity, with the best schools, churches, parks and public improvements.

Whole-hearted cooperation by that part of the community circle consisting of the business and professional interests is assured.

TWENTY FIVE YEARS AGO

1902 Taxes
Wheeling—\$16,182.95.
Palatine—\$17,153.54.
Schaumburg—\$6,283.03.

Schaumburg
Henry Dohi is a candidate for collector. How many more? Let us hear from all.
Relatives and friends helped H. Bartles celebrate his 33rd birthday Sunday.
The republicans will present a night party ticket this spring for own offices.
Salge's wind mill was blown in by the storm last week.
Chas. Quindel says he has made 5,000 buying and selling farms in past four years. He has averaged \$20 an acre profit.
Aug. Geisfeld couldn't stand the noise of the railroad, so he sold his farm in DuPage county and had a higher price for a farm in Schaumburg.

Mr. Prospect
L. W. Wille is a hustler. He has another car of coal.
Christ Wilke Sr., of Union was here on business and visiting relatives Friday.
Contractor Henry Beigel has finished the new barn on Wm. Busse farm for the Elk Grove draft horse company.
W. E. Thiemann of Itasca called on Mr. Prospect friends Sunday. He is the same old boy and we are always glad to see him.
Mrs. Louis Busse was pleasantly surprised by 25 friends Tuesday evening, it being her birthday.

Elk Grove
Freda Schwake who is working near DesPlaines was home this week.
Schnell's Corner
Little Lulu Scharringhausen is sick.
Eddie Pingel had the misfortune to cut his finger quite severely on Sunday.

Everdings Corners
Louis Garlish's children entertained Herman Landmeier's children Sunday.
Edward Freundt, Hudlak Behrens, Richard Landmeier, Martha Oldenburg, Elmer Landmeier, and Alice Landmeier were present every day during the school month closing Feb. 22.

Wheeling
Miss Laura Fork is staying with Mrs. George Stanger a few weeks.
Will Periolot and Oscar Fischer came from the city and spent Monday with their parents.
George Stanger met with quite a painful accident last week, while sawing wood a small piece flew up and hit his upper lip, cutting quite a gash.
Mr. Henry Walter, an old and respected citizen of Shermerville, aged 64 years, died February 20, after being sick only two days.

Mr. Henry Niebuhr and **Miss Hattie Wolf** were married at the Wheeling Presbyterian church on Thursday evening, February 26.
Arlington Heights
Nellie Fairchild is on the sick list.
Ella Thurber is working at Maplewood.
The boiler for the water works is expected daily.
Miss Clara Bollenbach spent a few days this week with relatives at Long Grove.

George Bughe has rented Mrs. H. B. Farwell's house, occupied by Henry Deering.

Palatine
Miss Pearl Clark of DesPlaines visited at I. M. Kuebler's Sunday.
Charles A. Ost visited at E. P. Mueller's in Milwaukee first of the week.
Henry Langhorst was sick and unable to attend to his duties at the Right Place part of the week.
Miss Agnes Danielson royally entertained the "Happy Six" and their gentlemen friends last Saturday evening.

Bert Sutherland quit his job in county treasurer's office this week to accept a position as traveling auditor for the International Harvester Company.
Mr. John Umbdenstock will soon move into his new residence.
Charles Wehrenberg has bought another farm near Kiel, Okla., 240 acres for \$4,500 cash.
Mrs. John Meisner and little son of Richmond attended the funeral of Wm. House.

The new gasoline street lamps were lit Wednesday night for the first time. After a little more experience in handling them Palatine will have the best lights out.
Attorney Ralph L. Peck has opened an office in room 1001 Ashland Block, Chicago, where he will be pleased to meet his clients.

Dissolution Notice
Public notice is hereby given that the partnership heretofore existing known as the firm of Staples & Nichols, has this day been dissolved by mutual consent. M. L. Staples will continue the livery and stable business at the old stand.

Quentin Corners
Chas. Meyer has bought a new wagon.
Wm. Bauman will help Aug. Grever another year. He seems very much at home here.
March 1st is the moving day here. Chas. Meyer goes to the John Page place in Cook county. Jacob Sturm Jr., goes on the Gainey farm and Fred Gulleth takes possession of the old Geo. Ela farm.

Mr. and Mrs. Fred Kropp, Sr., highly respected residents of this vicinity many years, expect to leave us soon and move to Palatine.

Roselle
August Pförtmueller received the lumber for his new barn last week.
L. Leisberg Sr., is now a resident of Roselle; he formerly resided at Ontarioville.
F. C. Bierman, the German school teacher, left for his new field of labor at Buffalo, N. Y., Thursday evening.

Chas. Albrecht is hanging the window shades and putting on other finishing touches in the bank building preparatory to the opening next Monday.

DEATH TAKES OLD RESIDENTS OF PALATINE

Death took two old residents of Palatine early Wednesday morning. Mr. D. Haffercamp and Mrs. Fred Helms both passed away within a short time of each other. Mr. Helms has been in ill health for some time. Mr. Haffercamp has been ill only a few weeks.

A third death the same morning which many Palatine people regret to learn was that of "Uncle Jake" Mair, who resided in Crystal Lake but who was a frequent visitor at Palatine. He was the brother of Mr. James Mair who died recently.

"Uncle Jake" had spent the week-end in Palatine, leaving for home Monday night. He suffered a stroke and died Wednesday morning.

MR. FRED HELMS
Mr. Fred Helms has been helped less the past three years and ever since the death of his wife on Jan. 31st, he seemed to lose all desire to live. His wife was broken hearted over the departure of his wife, who had administered to his wants so solicitously until her physical condition made that impossible. His companion for over 40 years often expressed the wish that if she was taken first, he hoped to be followed soon after by her husband.

Wednesday morning, Feb. 29, when Mr. Fred Helms passed away at the age of 69 years, 9 months, 3 days. He leaves to mourn one son, Walter, one daughter in law and other relatives and friends.

The funeral will be held Saturday afternoon, at 1:30 o'clock at the house and 2 o'clock at the church.
Mr. Fred Helms was born on May 26, 1858, at Berendschagen, Germany. Baptized on May 29, 1858. Confirmed on March 24, 1872, at Berendschagen. Came to America with parents in July, 1872. He was married to Miss Minnie Wienke at Palatine on Jan. 31, 1884.

His children were born to them, two of whom died.
Following his marriage, Mr. and Mrs. Helms occupied the present Senne farm, on Chicago Ave., a few miles west of the village. About 20 years ago, Mr. Helms purchased the farm on Ela road, where he resided until he sold it 3 years ago and moved to Palatine.

DIETRICK HAVERKAMP
Dietrick Haverkamp was born in Hanover, Germany Sept. 14, 1840 and passed away at his home in Palatine Wednesday, Feb. 29, 1928, at the age of 87 years, 5 months, 15 days. He came to America at the age of 18 years stopping in Chicago for a few years. In June, 1869, he was united in marriage to Charlotte Meyer of Northbrook, Ill. They purchased a farm near Highland Grove and resided there until 4 years ago, when they moved to Palatine and bought a home on Brookway street. Mr. Haverkamp was a member of the Lutheran church. He had an attack of bronchitis and with his weak heart, he could not throw it off.

He leaves to mourn his death his widow, three daughters, Mrs. Margaret Blohm of Palatine; Mrs. Mary Harns of Des Plaines, Ill.; Mrs. Carrie Hunter of Roberts, Montana; one son, William of Palatine; ten grandchildren, four great grandchildren, and other relatives.

The funeral will be Sunday afternoon at 1:30 at the house, 2 o'clock at the St. Paul's Evangelical church, burial will be at Hillside cemetery.

MR. JOHN WILY MAIR
Mr. John Mair, who resides near Crystal Lake, but who also called Palatine his second home returned to his home from Palatine Monday evening for the purpose of attending a community banquet in Crystal Lake. He appeared to be in his usual health the following day and even Wednesday morning he ate and ate a good breakfast. Shortly afterwards, when outdoors he complained of severe cramps in his limbs and dizziness in his head. Friends did what they could for him and called a physician. Mr. Mair was removed to the house and was alive when the doctor arrived, but a paralysis set in gradually passing from the limbs upwards causing his death shortly before noon.

The funeral will be held Friday afternoon at the Crystal Lake Methodist church.
Mr. Mair was born in November 1867, in Kilmarnock, Ayrshire, Scotland, son of William and Jean Richmond Mair. His brother, James Mair had previously gone to America. When he returned to Scotland for a visit in 1895, his brother, John, accompanied him to America. The latter made his home in Palatine, although his brother was at that time in Watertown, Ill. The deceased was employed for a time at the Richmond creamery in Palatine. He was married in 1908, but his wife passed away three years ago. He was a frequent visitor to Palatine especially since the death of his brother.

There remain five brothers and two sisters, all except two residing in Scotland. The brothers are Matthew of Fox Lake, Wis., Robert of Oregon and Will, Tom and Alexander of Scotland. The sisters are Mrs. Jessie Smith and Mrs. Grace Wilson of Scotland.

Tramp as Man of Leisure
A tramp is the American equivalent for the English "sturdy beggar." He is commonly defined as an able-bodied man without visible means of support, wandering aimlessly, begging and refusing work, kindling fires and camping.

Umbrella Reverenced
The natives of India regard the umbrella or "gamp" as being a powerful mascot. This is because it came from the canopy of state, the symbol of power and good fortune.

HIGGINS-CANFIELD

A skid chain found near St. Paul's Lutheran school. Owner may call for it at the school.

John von Bergen, pupil of the seventh grade, broke his arm Saturday cranking the tractor.

Mr. Sandles contemplated building a new brick bungalow in his subdivision. He hopes to have beautiful homes on this property, and he believes if he makes the start right, the others who follow will also build a good class of homes. We are surely thankful to Mr. Sandles for setting this example.

The English lenten services will be held in the regular services Sunday mornings. All services Wednesday evenings are in German.

The annual concert of the Lutheran Teachers' chorals will be held Sunday afternoon, April 15, at 3 p. m. The chorus sings: "Creation" by Haydn. Don't miss this wonderful opportunity of hearing this wonderful composition. Tickets may be had from Mr. A. Sachtleben or Mr. Aug. Lange. The prices range from 50c to \$1.50.

Our new heating system in church proved to be a success. Sunday it was quite windy and cold still the church was very comfortable.

John H. Sell has purchased a new Hupmobile sedan, a straight eight. He intends to take his family on many pleasure trips this summer. They will visit all points of interest. Mr. Sells son, Herbert, will drive the car so Mr. Sell can enjoy the sights. Some class to you John.

NORTHFIELD
Mrs. H. F. Winters left Tuesday for a visit with relatives at Sterling, Ill.
Esther Mayer has the mumps. She is at her sister's home in Arlington Heights.
C. H. Brown, Virgil Merry, wife, and babe returned home Saturday evening from a ten day visit with relatives in southern Illinois at St. Louis, Mo.

The new home of Mrs. Sanders is rapidly nearing completion. She and her children have moved into it.
Miss Jessie Lutz of Chicago was a Sunday guest of Mrs. Ed. Bach. Mr. and Mrs. Frank Dobbins, Mr. and Mrs. John Dobbins and daughter, Marcelle, Mr. C. H. Brown and daughter, Velda, were callers at I. N. Babert home Monday evening.

The funeral of Mr. Ryder, father of Mrs. Weider, was held at the Northfield church on Wednesday at 2 o'clock p. m. Burial at Wheeling cemetery.
Rev. M. G. Geil conducted the services. Music was furnished by a quartet of this place.

Misses Dorothy and Arlene Mayer and Olive Winters took a hike Sunday afternoon and called on Miss Lillian Fritsch of Northbrook.

Work is progressing nicely on Mr. Kelleman's home. The foundation is laid, the basement is nearing completion and the first floor is under way.

Mr. Frank Dobbins and I. N. Babert attended church services at Zion Sunday afternoon.

Mrs. Wessling is home again after a visit with relative in Wisconsin.

Offers Prize Winning Canna Bulbs For Sale
Canna bulbs, red, yellow and pink; high grade, ever blooming. Orders must be given before Mar. 10. E. H. Oltendorf, Palatine. Phone 95.

Life of Diesel Engine
The bureau of engineering, Department of the Navy, says that the life of a Diesel engine, except for the minor wearing parts, all of which are made renewable in modern quality built engines, is practically indefinite. The renewing of parts, such as worn liners, rings, valves, bearings, etc., is dependent very largely on the methods of operation and upkeep followed.

EAST MAINE

August Geweke attended the annual meeting of the Board of Directors of the Illinois State Farmers' Institute at Springfield this week. The officers for the ensuing year were re-elected the same as in 1927. One of the big questions before the board at this meeting is to decide on a place to hold the annual meeting of the institute next year, this year, you know, it was held at Waukegan. Mattoon and Centuria were the two cities seeking to be chosen as the place for the next meeting. Centuria won out by a margin of one vote.

A baby daughter was born to Mr. and Mrs. George Engel February 27. Congratulations.

The next meeting of St. Matthews Ladies' Aid will be Thursday evening, March 8, in the school hall as usual. Miss Alvina Beto, Mrs. Kate Beto and Mrs. Fred Finnern will serve.

A birthday party was staged at the home of Mr. and Mrs. Wm. Wilke Sunday evening in honor of Mr. Wilke's birthday anniversary. Reports from neighbors and friends who attended say that a delightful time was enjoyed.

Negotiations were completed last week closing the sale of the John Schwinge farm to a real estate firm who had been looking about for a place to suit their purpose, which, by the way, is more or less of a secret at present. The entire 50 acres on the east side of Milwaukee avenue, with the house and other farm buildings were included in the deal. Mr. and Mrs. Schwinge it will be recalled retired from active farm work a few years ago and are now enjoying life in Des Plaines.

Another birthday party was held Saturday evening at the home of Mr. and Mrs. Henry Ahrens in honor of their son, George A. Ahrens. A crowd of his young friends were royally entertained until rather an early hour Sunday morning, and the party pronounced quite a success.

No longer will a bare, empty corner meet the eyes of the passerby when motoring by the corner of Milwaukee avenue and Dempster street where the former Welcome Inn, the famous old landmark has been reduced to a heap of ashes. A new structure has been placed upon the spot. The home formerly occupied by Leo F. Jacobs on Cumberland road, has been moved over to fill the void. The owner's plans are to install a gasoline filling station on the corner and rent the house.

The celebration of Mrs. L. Voss's birthday anniversary Saturday evening was the last party at which Mrs. Voss will entertain in East Maine. Monday morning bright and early, they moved their household goods and effects to their new home in River Grove, where they will make their future home.

President Geweke and Treasurer Jacobus of the Cook County Truck Gardeners' Association attended a meeting of Calumet Local No. 20, Friday, Feb. 24, at the town hall in South Holland. This meeting had been called for the purpose of considering contracting sugar beets, tomatoes, etc., for 1928. Beside the members of the Calumet local, an interesting attendance of farmers from neighboring localities were also present. In addition to being beneficial to the members from the contracting standpoint, the membership of local No. 20 was also increased at this meeting for the benefit of the power behind organized truck growing was realized by new gardeners who took out memberships in the association.

IN MEMORIAM
In loving memory of our dear mother, who passed away March 3, 1927.
The saddest day of all the year, For us, is here once more;
The day you left us mother dear, For that far distant shore;
Tho' time goes on, it can't erase Our sorrow, grief and pain,
Until we meet you in that place Where joy and gladness reign.
Henry Goettsche and family.

Church Services
At Elk Grove
Gospel meetings will be held every Saturday at 8 p. m. at the old school house, District 59, Elk Grove, corner Higgins, York and Touhy roads. All welcome. Seats free, no collections. (3-20)

No Silent Wish
"Clams," says a woman's page writer, "are more popular." Folks clamor for 'em, so to speak.—Farm and Fireside.

Edwin Winkelman Entertains on 21st Birthday

Edwin Winkelman, Sanders Road and Winkelman Road, celebrated his 21st birthday on February 24, 1928. Himself and friends went to DesPlaines in the evening and attended a show at the Polka Bros. seeing "The Underworld," which was enjoyed by all. After the show Edwin and party had made reservations at the Avenue Tavern a supper was served and prepared by Mr. and Mrs. Forbach, which was enjoyed immensely. The following evening a surprise party was given in his honor at the Winkelman home at Sanders Rd. and Winkelman Road. The following people were present: Mrs. H. Phanke of West Northfield; Miss Laura Garrett of West Northfield; Miss Theresa Hotopp of Wheeling; Mrs. M. Deering of West Northfield; Mr. H. Bergman of Wheeling; Edwin Winkelman of West Northfield; Mrs. Alfred Peters of Arlington Heights, Mr. and Mrs. Henry Winkelman.

A supper and refreshments were served and the parties enjoyed themselves up to the wee hours.

PRESBYTERIAN CHURCH
E. Leslie Shaw, B. D., Pastor
Sabbath school 9:30.
Morning worship 10:45.
Evening service 7:30. It is the desire of the pastor to make this an evening of song. All are cordially invited to worship with us at all services. The church is here to serve the community. If the church does not contribute to your life it is because you put nothing into it with your time and presence. If you have no denominational affiliations you are invited to make this your church home.

The weekly confirmation class for the training of those children who contemplate uniting with the church will be held Saturday afternoon at one thirty o'clock at the manse.

Choir rehearsal for this week will be held at the church Friday evening at seven thirty o'clock. As we are looking forward to special music for Easter Sunday all who will render service are urged to be present Friday evening. Choir rehearsal the following week will be held Thursday evening at the same hour.

The members of the Ladies' Aid will meet for their monthly session Thursday afternoon, March 8 at two o'clock. All ladies of the community are invited.

Last Wednesday evening the Ladies' Aid gave their annual Washington supper. The menu consisted of baked ham, scalloped potatoes, pickles, cold slaw, baked beans, apple and cherry pie, rolls, and coffee. The people of the community showed their appreciation of the usual splendid, appetizing Washington supper with an attendance of close to two hundred.

Soot Settles on Cities
Enough soot and dirt that over American cities in one year to bury every street on Manhattan island to a depth of 21 feet, according to estimates published in Popular Mechanics Magazine. Or, if dumped in one pile, it would make a pyramid 1,500 feet high and five miles at the base.

Coagulates Blood
Coagulin is a powder discovered by Prof. Theodor Kocher of Bern, which instantly causes coagulation of blood when dissolved in water before being applied.

One's Own Business
It is the inestimable right of human beings to find happiness in their own way or to grow by their own mistakes. — Woman's Home Companion.

WHEELING DEPARTMENT

some time visiting with relatives down state, and will then continue their trip down into Florida if they can.

Mrs. Bertha Gertson and little son, spent several days of last week with her parents, the John Wick family.

Mr. James Smith, who has been spending the winter with the Busch family in Aptakisic, is receiving treatment at the Wheeling hospital.

Miss L. Garratt and Miss M. Dickson spent the week-end with a friend at Moline, Ill.

The Schuessler children of Chicago, spent their Washington birthday holiday with their aunt, Mrs. Jesse Tesch.

The Misses Evelyn and Llewelyn Mohr, and Hazel Utpadel called on Mr. and Mrs. Raymond Hornberger at their new home near Deerfield, last Thursday afternoon.

Miss Fritz Wick sang over WHT during the afternoon program broadcast from that station last Saturday.

Miss Margaret Hale and friend from Maywood called on friends here on Sunday evening.

Mr. Stephen Crumadi is the new proprietor of the barber shop in the Masonic building. He will also operate a pool room in conjunction with the barber shop, the building having been remodeled to accommodate the same. Mr. Crumadi was formerly employed at the Neumann tonorial parlor in Arlington Heights.

Mr. Louis Reider, an old time resident of Wheeling, passed away at the home of his daughter, Mrs. H. L. Wieder, last Saturday afternoon.

Mr. and Mrs. J. E. Barrett left on Monday morning for a tour in the southlands. They plan to spend fine road and weather conditions favorable. They expect to be away for several months.

Mr. James Bailey is experiencing an enforced vacation. He has been suffering with blood poisoning in his left arm, which developed from a small infection in his hand.

Mrs. Alice Utpadel and her son Joseph Behm, returned home last Saturday after spending several pleasant months in the w.

Miss Dorothy Periolot of Chicago is spending several days with aunt here.

Rev. and Mrs. H. J. Wi visited relatives and friends this week.

Mr. Harold Hartmann's advantage of the cold snap to lay in a supply of ice, the only ice house to modern winter. The use of ice-wood stoves and manufacture C. M. made ice cutting in practically nil.

A WORD A WEEK

GRIND
There is an Eastern tool works that annually discards so many worn-out grindstones that it is becoming a problem what to do with them.
I wonder how many men have stood at these old grindstones saying to themselves, "It's all a grind—a dull, deadly grind from morning till night!"
Doing the same thing in the same way; the same dreary round of routine duty, every day, in the same old surroundings; the drudgery, the monotony of it all—that's what makes us feel that it's a grind.
Your job and mine are that if our work is uninteresting, or if we haven't sense enough to see the interesting side of it.

But it's the grinding process that shapes and fits us for better service. The finest tools are carefully ground, and the process is never hurried.
Let us visit a certain workshop. The workman is holding to the grinding wheel what seems to be a small brown pebble. He grasps the little thing with his pinchers as if he would crush it, and holds it to the rough stone without mercy. Occasionally he holds it up to the light and examines it carefully. Now we see that in reality the little pebble is a diamond in the rough.
Workman, why do you bear down and grind the jewel so hard?
I want, to grind off every crack and flaw.
"But don't you waste it that way?"
"Yes, but what is left is worth the more. The fact is, this diamond, if it will bear the wheel long enough, is to occupy a very important place in the crown of a king."

So the humdrum, the monotony, the daily grind will fit us for the service of God and man, if we can bear the wheel long enough.

U. S. Department Of Agriculture News Notes

Consult your local postal authorities for rates, regulations, and requirements for shipping farm produce by parcel post.

Cows of low or medium production are not thought to require so long a dry period as high producers. Such cows should be dry a month or six weeks, provided they are in a good state of flesh. Thin cows may need a somewhat longer period. High producers may require two months or more to permit them to get in proper condition for calving.

The application of manure from the dairy herd improves the physical condition of the soil and also adds valuable chemical fertilizing constituents. If the herd is fed considerable quantities of purchased feeds, the manure produced, if all is properly applied to the fields, will improve the fertility of the soil faster than the feed crops remove the fertility.

As a rule the number of cattle that can be fed for market on a Corn Belt farm is limited by the quantity of roughage available. Shelled corn can nearly always be purchased from the other farms, but the buying of hay is usually expensive and inconvenient. Hence the silo has an especially important place on farms where more roughage is needed than can be supplied as hay. A feeder who makes a specialty of feeding cattle in large numbers throughout the year is more likely to use silage than the feeder who handles only 20 to 25 head.

Many new owners of tractors, and some of the old ones, too, would be able to economize in fuel and time if they sent for Farmers' Bulletin No. 1045-F, entitled, "Laying Out Fields for Tractor Plowing." There are tricks in the trade that have been solved by agricultural engineers who have worked

out methods for eliminating some of the travel with the plow out of the ground, for avoiding awkward turns, and for effective plowing of the diagonals. It is sent free on application to the United States Department of Agriculture, Washington, D. C.

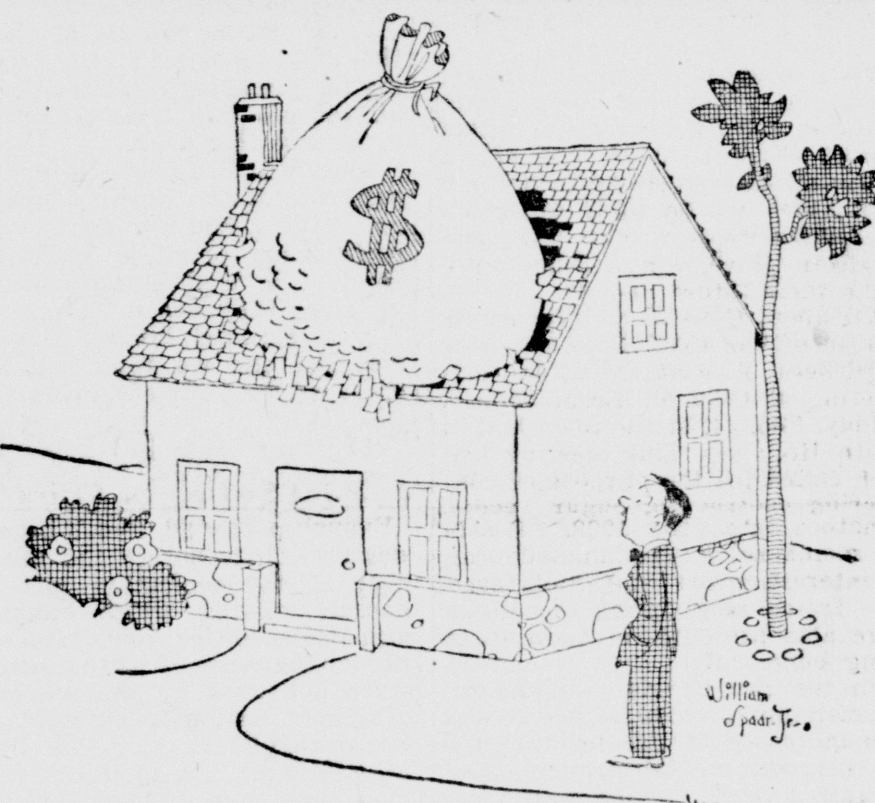

A good homemade egg tester or candler can be made of a box which, set on end, is large enough to inclose the light or lamp. A hole slightly smaller than an egg should be cut in the side of the box at the same level as the light. An electric, gas, or kerosene lamp may be used. If a kerosene lamp or gas lamp is used, there should also be a good sized hole at the top of the chimney may set the box on fire. All eggs in the incubator should be tested at least twice during the period of incubation, preferably on the seventh and fourteenth days.

The legumes, of which alfalfa, all the clovers, vetch, lespedeza, cowpeas, and soy beans are examples, are the best kinds of hay for dairy cows. They are high in protein and are rich in mineral matter, especially calcium. Their use will reduce the quantity of high protein concentrates necessary to be bought to provide well-balanced rations. Leafy, small-stemmed hay, cut before it is too ripe, and properly cured, is the best. In this condition it is more palatable and will contain a maximum amount of its natural green color. It is a hard problem to feed cows economically and get high production without the feeding of legume hays. It is usually cheaper to grow them on the farm than to buy them. On account of its high protein and calcium content and its palatability, alfalfa under conditions where it does well, is considered the best legume for cows.

Effective Fly Poison

Flystone is a native arsenide of cobalt, used as a fly poison by grinding it and adding it to sweetened water.

WANT AD RHYMES

In nearly every attic
 There's "junk" that could be sold;
 If the owners would advertise,
 This "junk" would turn to gold.

"The Volstead act may have taken the kick out of everything else, but there sure am one thing I'll never take the 'wallop' out of, nohow. That's Newspaper Advertisin'. And th' beauty of th' newspaper stuff is that th' next day finds you with more money in your pockets, no headache and a big smile on your map!"

Smilin' Bill

Advertise!

Advertise what you are doing.

Advertise what you expect to do.

Advertise your old goods and move them.

Advertise your new goods and sell them before they get old.

Advertise to hold old trade.

Advertise to get new trade.

Advertise when business is good to make it better.

Advertise when business is poor to keep it from getting worse.

Advertising is not a "cure all."

Advertising is a preventive.

Advertising does not push, it pulls.

Advertising to pay must be consistent and persistent.

MEETING COMPETITION

It is exasperating to retail store people, when they see folks buying stuff out of town that could be had for the same or less money at home. Still, instead of growling too much about it, the best way to meet that competition is to imitate the methods in use in the places that draw this trade.

The alert business man makes it a point to go frequently to take a tour around to the stores in larger cities, to see how they do things. He will not usually find goods any cheaper, but he may get ideas that would be helpful in his own business. New methods in display and arrangement are a help in keeping the trade in the home stores where it belongs.

The "South Sea"

The name "South sea" was given to the Pacific by its discoverer, Balboa. As the isthmus of Panama, where he crossed it, runs nearly east and west, the Pacific forms its southern shore; hence, to the Spaniards on the isthmus it was the South sea. Until the Nineteenth century this was the common name, sometimes employed in a special manner for the South Pacific. It is still frequently used.

— WANTED —

WANTED

Men and women to help us move the few remaining lots we have in Fairview addition. This is in connection with our wonderful DREAM HOME exhibition now in full swing.

We wish to open two new additions just west of the DREAM HOME and therefore, during the next 30 days we offer our few remaining choice lots 50x132 at the ridiculous low prices of \$650 to \$800.

Whether you believe it or not those are the prices. The sale is bona fide.

Come to the DREAM HOME, bring your friends, pick out your lot—NAME YOUR TERMS.

There is no reason now why everyone cannot be a property owner. Why you can't have a home.

DON'T WAIT

The lots at these prices and terms are going like hot cakes. Buy before the boom.

ECHOES OF THE NEWS

A Chicago negro hit a choir leader over the head with a black-jack because he was singing out of tune. That reminds us of a negro umpire in Georgia who killed a base runner in a baseball game for not stopping when he yelled "out."

There may be no real objection to the proposal to grant Mrs. Leonard Wood a pension of \$5,000 a year, as is done for widows of presidents. But if the plan is to be enlarged, we will soon have a pensioned royalty on our hands.

Several "favorite sons" are due to feel like stepsons along some time this summer.

Charley Chaplin's latest "release" entitled "Income Tax" (scenario by Uncle Sam; direction, U. S. A.; title to U. S. A.) is reported to be a tragedy.

FOR SALE

FOR SALE—100 hot bed sash, 1 small gas engine, 3 single horse cultivators, 6 hand cultivators, 1 sulky cultivator, McCormick mower, double horse pulverizer, Ford truck. MILBURN LOW BIDDER ON PAVING JOBS

February 28 the board of local improvements opened bids on the Lonnquist Country Club pavement, the Lonnquist boulevard job and the curb and gutter job for Shab-bone Trail.

Herman Haas was elected chairman pro tem in the absence of the president. Upon a duly moved and seconded motion, the bids were opened and read.

Country Club Pavement
Arcola Construction Co. \$166,731.15
Milburn Bros. 159,676.95

Lonnquist Boulevard
Arcola Construction Co. \$ 17,732.36
Milburn Bros. 16,801.65

Curb and Gutter
Arcola Construction Co. \$ 11,939.50
Milburn Bros. 11,165.50

Both of the above mentioned bids were taken under advisement until March 6, when the contract will be awarded. When chairman Haas called the meeting to order all trustees responded present. The above contracts are the first of the series of ten jobs to be awarded within the next two weeks and the outlook is that we will have a number of other local improvements to be made before the year is well started. We will keep right on going as fast as the property owners want action, is the way the village board feels on the matter.

Buildings Contracts

Cooperation Wins In Big Leap Year Sale

The Leap Year Sale was quite a success and it is only fair that we put the credit for making it so where it belongs—not to any one person, but to the co-operation of the merchants, the Herald and the citizens and friends of our village.

Now that we are started on the right track, let us, one and all, get behind the movement to make Mt. Prospect the "New Trading Center." The merchants, the press and the Chamber of Commerce are united behind this latest stunt, if you please, to put Mt. Prospect over in a fashion that will be to the benefit of all concerned. This is the time to give the ball a push and see to it that it gathers speed as it rolls along the path of progress.

The Chamber of Commerce will have some mighty fine Booster signs for every one who wants them and there will be no charge to the individual, the only obligation being the party securing the stickers or signs to use them to advantage and do all they can to Boost Mt. Prospect.

It will be a matter of a week or two before the plan is fully worked out, but the Herald will tell you all about it as soon as details are available. The Chamber is also working on another feature to go along with this one for the use of the merchants in our village and will be hard to stop the progress of this boom within the village as we are a united people on one subject and we believe we are right. That's why we will succeed.

LET CONTRACTS ON MANY HOMES IN MT. PROSPECT

John Gors informs the Herald that he has received the contracts for the mason work on three homes to be built for Boorman and Coughlin in the Lonnquist Country Club subdivision.

William Busse and Son, Inc., were the successful bidders on the plumbing and heating work for these three homes.

Boorman and Coughlin are well known contractors and builders, who have had extensive operations on the North Shore and the Lonnquist properties appealed to them in such a way that they will build a unit of three homes as their first operations in Mt. Prospect which they will follow with other units from time to time. Their object is to build at least twenty homes in Lonnquist's Country Club subdivision this year. To them the Herald extends a hearty welcome as builders in the "City of Progress" as our village was rightfully sloganized in 1922.

Mr. Albert E. Busse reports also that the firm of William Busse and Son were successful in securing the contracts for the heating and plumbing of three new homes to be erected in Centralwood subdivision, the Albert Pick properties. The mason work will be done by John Gors.

Now let us see the man who says we would be slow in building operations. Six new homes in one week is a record any village can be proud of and Mt. Prospect is proud of this fact but we have just started. Wait for further developments and watch our village build homes that will be a pride to any community. Our restrictions are right and a zoning law that is hard to beat are the secrets of our beautiful homes and building programs.

Additional Locals

The bowling news will be found on page 5 of this issue.

Mr. and Mrs. Wm. Horstman and their son, Billy Jr., have become south side residents, as they have moved into Mrs. Wittes house on Wille street.

Monday evening at 7:30 p. m. the spectacular motion picture production "The Birth of a Race" will be shown at the new public school assembly hall. The story of the picture is one that is well worth while and we are hoping for the same kind of interest that was shown when Uncle Tom's Cabin was put on. This may be the last of the shows for the season or at least until after Easter.

Mr. and Mrs. William Busse and Mrs. M. Froemling left Tuesday on a trip to Hot Springs, Ark. Our Mayor, William Busse, has been working too much and was on the verge of a complete breakdown, is the reason for the trip and we are all hoping to see our mayor back in about two weeks in the best of health. A real rest will do William Busse a world of good and this is what the doctors advise when one is doing more than his share of mental work.

WRECKS CAR—SAVES A LIFE

Monday afternoon the world was all smiles with the best kind of spring weather, yet this same weather would have brought sorrow plenty in the homes of one of our residents. The story runs along on the order of a hit and run matter, but a citizen of Mt. Prospect will never run away from an accident and will always do the right thing at the right time although it may cost considerable money.

This bright Monday afternoon the boys were out on their bicycles and having a good time, a car approaches, it is too late for the boys to get out of the way and if the driver of the car goes right ahead it is evident that one of the boys will come under the wheels of the car and as a result be either crippled for life or find death waiting. There is just one thing to do and that is for the driver of the car to swing his car into the tree and take the result or kill the youngster. Well this driver was a resident of Mt. Prospect and he did the best thing. He ran his car into the tree and saved the life. The cost of the repairs required for the car will be plenty, but these do not amount to the value of the life of a child.

This little story illustrates an accident that happened and brings out the facts in the case without the use of the names of those concerned, but we appeal to all to be careful and teach the children not to take a chance. Let us all practice the old, old method of Safety First—teach it to the children and the grown-ups as well.

WHO IS WHO

Here we are again with our weekly story on one of citizens. This week we have picked a man you all know and one who has been a resident of Mt. Prospect for many a year. Here is the first clue as to who his identity is. He is a carpenter and has built the biggest percentage of homes in the village of any of the local contractors.

It was back in the year 1903 when, as a young man, he started to learn his chosen profession under the direction of William Wille and worked for Mr. Wille seven years. At that time he entered business as a contractor and builder, which he followed for about 12 years. During this time he built a number of homes in Mt. Prospect and Arlington Heights as well as out in the town of Elk Grove for many of the farmers. In 1922 when the Mt. Prospect Development Association was organized he became interested in this association and was at the head of the carpenter construction department for five or six years. Today he is again in business for himself and is operating extensively in our village.

Our man was a member of the original Village Board and has served continuously since then with the exception of one term of two years. However, he is back on the board and is chairman of the police and light committee, a member of the street and sidewalk, health and drainage committees. You may know him from this history, but for the benefit of the newer residents, let me say that our man is Henry Beigel.

Mr. Beigel is president of the local branch of the Concordia and a member of both the Chamber of Commerce and the Improvement Association. He takes an active part in all these organizations and is always ready to help promote the civic welfare of the village.

Henry Beigel has been a director in the Development Association since its organization in 1922.

Trustee Beigel has served the people well in the years he has been a member of the village board and is always ready to listen to any of the residents of our village should they have anything on their minds they desire to tell him. It was Henry Beigel who helped frame the building ordinance as well as giving him time to help in whipping out zoning ordinance in shape.

It has been our pleasure to watch Henry Beigel progress with the growth of our village and we can say that he is one of the best informed men on the building and zoning requirement of our village that we have. He is always willing to give the right kind of information to anyone who may desire it and he can give this information accurately.

Straight, forward, honest, are the attributes that apply to Mr. Beigel. He is a man who can be relied upon in all things.

Insurance Essentials

Some car owners go without protection against accidents. They feel so sure of themselves—or are naturally optimistic—or argue that careful driving doesn't require liability insurance.

But they cannot batter down the fact that the road risk is universal. Those who drive with the greatest care and skill nevertheless become victims of claims and lawsuits. "In a single year approximately 25,000 people were killed and 700,000 injured as the result of auto accidents."

Perhaps you are a good and cautious driver and for that reason feel sure no accident will happen in your case. Or maybe you are one of many who have formed the habit of thinking of accidents as misfortunes that happen only to "the other fellow."

But your hopeful view will not help you when your time comes. Unless you fully protect yourself against accidents, the pleasure your car affords you today may turn to pain tomorrow.

Your car, which gives you joy brings with it responsibilities—which is true of anything you own. If death or injury is caused by your car, you may be held legally liable. Untold sorrow may be in store for you if you do not recognize your car responsibility in time and make provision to meet it.

The necessary safeguard, the accident shock-absorber, is automobile liability insurance.

Leo C. Moehling is agent for auto insurance for the Insurance Co. of North America, the oldest insurance company in America, founded in 1792.

We are pleased to hear that little Frederick Bierman is on the road to recovery after a severe illness.

WHEELING MAY MEET WIDER ROAD SCHEME

The village of Wheeling finds itself face to face with an unusual condition. The county and state in their widening program threaten to take away their main street and some methods of relief must be found. Wheeling is a village in which 75 per cent of its activities are connected with Milwaukee avenue, which passes thru its center and is the only street that has business frontage at the present time.

The state desires to widen the existing 18 foot pavement to 40 feet, which means that after it is completed there will be no room for parked autos, except along side of the present narrow sidewalk. The sewer problem is also brought to the fore by the action of the state. Two sewers, one on each side of the 40 foot pavement upon a widened street seems to be the only acceptable method.

These problems are now before the village council acting as members of the board of local improvements.

The village board realized a year ago that the widening of the cement highway thru their village would necessitate a wider street, instructed their engineers last summer to make a complete survey of that street, showing the location of every building facing it. This survey is available now in the consideration of a wider street. It shows that if the street is widened to 90 feet, as has been suggested, there are at least seven buildings which would necessarily have to be moved back or cut off.

A proposed ordinance with estimates showing the cost of the work was recently presented to the board of local improvements, which called a public hearing. That meeting was first held a week ago and was postponed March 9 in order to give the property owners further time to consider its provisions.

It is proposed to have the pavement on Milwaukee avenue from Dundee road to the north village limits widened to 56 feet, sixteen feet of which would be paid for by the adjoining property owners. It is proposed to make the main business section from Dundee road to the Hartman house, seventy feet wide, with the width of the balance of the street, 56 feet wide. The total cost of this improvement, including gutters, curbs, reinforcement, etc., would be about \$237,000. The state of Illinois would pay about \$78,000 of this cost.

These figures are about the same that are being paid in adjoining communities and amount to less to the individual property owner than in places where the state is not co-operating.

In addition to this cost it is estimated that \$25,000 would be necessary to pay for damages to buildings or moving the same.

The sewer problem makes necessary a decision at once in reference to the widening of the street. That sewer must be laid before the state can do its work. The nature of the sewer and its costs depends entirely upon the acceptance of the enlarged paving question. If the village does not cooperate with the state upon a super highway, and does not make provisions at this time for a sewer, the business houses will be at a great disadvantage and the growth of the village will be greatly retarded. It might mean the subsequent removal of the business section to Dundee road or some other street, which would mean a deterioration in frontage values of all property facing Milwaukee avenue.

Des Plaines spent thousands of dollars to widen its business street in anticipation of the widening of the Northwest highway. Mt. Prospect is working on similar plans. Property owners of the Northwest highway at Arlington Heights are working upon a plan that will widen that highway to 70 feet.

The problem before the people of Wheeling is a big one. The future of that town depends upon a correct solution.

MT. PROSPECT

Mr. George Meier was taken to the Evanston hospital Friday, Feb. 24. On Saturday Mr. Meier was operated on and we are glad to say that at this date he is well on the road to recovery.

Mr. and Mrs. William Busse and their daughter, Mrs. Martha Froemling have gone for a vacation to Hot Springs, Ark. Both Mr. Busse and Mrs. Froemling have not been very well lately, and we trust that this trip will greatly benefit them.

The Valentine Party given by the St. Paul's choir was a big success. The committee had arranged some very interesting games, and a very good lunch was served. Rev. Mueller's encouraging speech had wonderful results, as on Friday night quite a few new members showed up, here's hoping others will follow their good example.

George Meier, we are informed, is at the Evanston hospital where he underwent an operation the latter part of last week. We are looking forward to see George Meier and his pleasant smile on the streets real soon.

Our Beauty Parlor will be ready for business on Friday, March 9. Come on ladies, Mt. Prospect can now take care of your every want in hairdressing and cutting.

John P. Moehling is remodeling the interior of his home into a modern one with the latest equipment being installed.

A. E. Busse reports business is fine and is looking forward to having the plumbing department break all records on their construction programs this year.

The Mt. Prospect Motor Company report the repair department as working 100 per cent capacity with plenty of work waiting. Mr. Bradley is well pleased with the progress they are making.

Mrs. Edward Busse is on the sick list and we hope will be on the road to complete recovery before long.

The merchants in general say business is good and we are pleased to tell this to the world.

Next Sunday St. Paul's Lutheran church will celebrate the anniversary of the dedication of their church building, which was built and dedicated 15 years ago. The dedication sermons at that occasion were delivered by the pastors C. Noack of Arlington Heights, F. Zersen of Racine and Dan Poellott of Palatine. The anniversary service next Sunday begins at 10:30 a. m.

Next Sunday afternoon a special business meeting will be held by the members of St. Paul's Lutheran congregation, to discuss the proposed building of a new school house. A preliminary sketch, drawn by an architect will be submitted. "The Jolly Bunch" met at Mrs. Christ Busse's Wednesday afternoon. The afternoon was spent with some very interesting games. Mrs. Edwin Busse, Mrs. Wm. Genrich and Mrs. Ernst Kruse carried home the prizes. A very delicious luncheon was served. As usual, the "Jolly Bunch" had a very enjoyable afternoon.

The bunco club met at the home of Mrs. Chas. Rateike on Friday evening, Feb. 24th.

The members of Uphill Bunco Club gathered at the home of Mrs. Gerstner on Tuesday afternoon, Feb. 28 to enjoy their semi-monthly games.

Our friend Lawrence Riteike was suddenly taken to the hospital to be operated for appendicitis. We all wish him a speedy recovery.

Sunday afternoon our bowling team plays at Mundelein. All bowling fans wishing to see this match game, please bring "horse shoes" along.

The local V. F. W. Post has something interesting up their sleeve. "No foolin'" either.

TIMOTHY SEED

Poor seed never grew a good crop. That's just plain horse sense.

So, why take chances? There's no better Timothy seed than genuine "Pine Tree" brand.

Big, plump, vigorous seed—cleaned and re-cleaned—the kind you can depend on every time.

Pay you to come in and look over our stock. Prices will please you.

MEESKE'S

KOHLER OF KOHLER

We're the folks to see for bathrooms

If it's a new house, see us. If it's an old house with an out-of-date bathroom to be made modern, or an extra bathroom to be added, we're at your service.

We will show you how to lay out your floor space for utmost comfort and convenience—we'll give you color suggestions for walls and floors. And we'll promise you, in the Kohler fixtures which we recommend, plumbing ware as fine as money can buy—at very reasonable cost.

Ask us about new plumbing for kitchens, lavatories, and laundries, too. Glad to come and see you any time. No charge for estimating.
